The **NCEXTEND1** Grade 11 is a performance-based alternate assessment designed to assess students with significant cognitive disabilities. The **NCEXTEND1** assessment items are grade-level performance items that measure the standards specified in the North Carolina Standard Course of Study Extended Content Standards. These Extended Content Standards are available for download at <http://www.ncpublicschools.org/curriculum/ncecs>.

Column 1: Student's Achievement Level Descriptor

- The **achievement level descriptor** indicates what knowledge, skills, and abilities your student demonstrated based on his or her level of achievement on the test. A complete listing of the achievement level descriptions can be found at the North Carolina Department of Public Instruction/Accountability Services Division website at <http://www.ncpublicschools.org/accountability/testing/shared/achievelevel>.

Column 2: Student's Scores

- There are 15 items (i.e., 5 English language arts/reading items, 5 mathematics items, and 5 science items) on the **NCEXTEND1** Grade 11 Alternate Assessment. Students are provided up to two opportunities to respond to each item, and items are scored on a 0–2 point scale. The number of questions your student answered correctly is reported as the **total score**. Your student received a combined score for English language arts/reading, mathematics, and science.
- There are five **achievement levels** reported (i.e., 1, 2, 3, 4, and 5). Your student is assigned an achievement level based on his or her total score.
- The achievement level indicates whether your student's score is **proficient** (Yes) or not proficient (No). Achievement level 3 indicates that the student is proficient in the grade-level knowledge and skills assessed by the test. Achievement levels 4 and 5 indicate the student is proficient in the grade-level knowledge and skills assessed by the test and has met the college-and-career readiness standard, which is a part of federal reporting.

Column 3: Total Score Comparisons

- The row of **achievement levels** indicates the achievement level your student scored on the test and if the score is proficient (levels 3, 4, or 5) or not proficient (levels 1 or 2).
- The **student** bar shows your student's total score compared to the total range of possible scores (i.e., 0-30).
