REGINALD KENAN  
Rose Hill – Southeast Region

WAYNE MDEVITT  
Asheville – Western Region

DAN FOREST  
Lieutenant Governor :: Raleigh – Ex Officio

AMY WHITE  
Garner – North Central Region

ERIC DAVIS  
Charlotte – At-Large

JANET COWELL  
State Treasurer :: Raleigh – Ex Officio

OLIVIA OXENDINE  
Lumberton – Sandhills Region

PATRICIA N. WILLOUGHBY  
Raleigh – At-Large

JUNE ST. CLAIR ATKINSON  
Secretary to the Board :: Raleigh

GREG ALCORN  
Salisbury – Southwest Region

NC DEPARTMENT OF PUBLIC INSTRUCTION

June St. Clair Atkinson, Ed.D., State Superintendent
301 N. Wilmington Street :: Raleigh, North Carolina  27601-2825

In compliance with federal law, the NC Department of Public Instruction administers all state-operated educational programs, employment activities and admissions without discrimination because of race, religion, national or ethnic origin, color, age, military service, disability, or gender, except where exemption is appropriate and allowed by law.

Inquiries or complaints regarding discrimination issues should be directed to:  
Dr. Rebecca Garland, Deputy State Superintendent :: 6368 Mail Service Center, Raleigh, NC 27699-6368 :: Telephone: (919) 807-3200 :: Fax: (919) 807-3388

Visit us on the Web :: www.ncpublicschools.org  M0816
For quite some time, a hallmark of high quality Career and Technical Education programs has been purposeful partnerships with business and industry. These partnerships have provided opportunities to determine the necessary elements for cultivating a prosperous economy unique to a particular Prosperity Zone where high school graduates are adequately prepared for immediate employment and employers are ready to integrate graduates into their workforce. North Carolina Career Pathways are designed to enhance a seamless transition from secondary and postsecondary education to employment by providing students with the academic, technical and employability skills that employers expect; and equipping students with industry-recognized certifications and licensure that have value in local, regional, state and global economies.

This North Carolina Career Pathways Directory is a tool which has been designed for use by Career and Technical Education Directors, Community College leaders, Workforce Innovation and Opportunity Act (WIOA) Pathways Consultants, prospective employers, and any others with an interest in developing and supporting pathways as a strategy for talent pipeline development to address economic and workforce needs. As an initial collective listing of Career Pathways offered by Local Education Agencies (LEAs) and high schools, this document is a living directory and will be updated annually. Users of this directory are provided the pathway, targeted occupations, secondary and postsecondary credits as well as possible articulated high school credits. In addition, credentials, work-based learning opportunities, career awareness/guidance activities and links to more information about the pathway are provided.

Career Pathways provides access to all students to a high quality, high skill or high demand career. The experience for students spans secondary and postsecondary levels, offers focused career guidance and advisement systems, blends rigorous core academic and career-technical instruction, includes high-quality work-based learning experiences, and culminates in postsecondary and/or industry credentials with labor market value.

Many states and entities have worked to develop career pathways for a number of years. North Carolina’s pathway initiative contains a set of required elements that have been developed with and approved by the state’s primary workforce development partners. These elements are foundational to Certified Career Pathways in the state and endorsed by the NC Works Commission. Below is the link to the requirements for Certified Career Pathways.
Community Benefits

<table>
<thead>
<tr>
<th>Beneficiary</th>
<th>The NC Pathways Directory is a tool that will:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prospective Employers</td>
<td>allow employers to see first-hand which pathways students in their respective prosperity zone are completing.</td>
</tr>
<tr>
<td>Workforce Development Boards</td>
<td>enhance collaboration with local school systems for increased skill development for students and the community served.</td>
</tr>
<tr>
<td>Economic Developers</td>
<td>market the quality of the potential workforce of a community.</td>
</tr>
<tr>
<td>Career and Technical Education Directors</td>
<td>connect with other LEAs for pathway development.</td>
</tr>
<tr>
<td>NC Community College Partners</td>
<td>align with career pathways offered in LEAs that promote advancement of business and industry in their respective Prosperity Zones.</td>
</tr>
<tr>
<td>Career Development Coordinators</td>
<td>increase exploration of pathways that are available for students and that support a workforce need to increase the probability of employment for students.</td>
</tr>
<tr>
<td>School Counselors</td>
<td>increase awareness of pathways that are part of a comprehensive career advising system.</td>
</tr>
<tr>
<td>School Administrators</td>
<td>strategically design pathways to increase the number of students prepared for careers and college with stackable industry-recognized credentials.</td>
</tr>
</tbody>
</table>

The Table of Contents lists each Career Cluster along with the Local Educational Agency (LEA) and the high school that offers a particular pathway, as well as the page location.

This Career Pathway Directory is designed to provide information that is beneficial to career pathway development. If you have any questions contact Carol Short at Carol.Short@dpi.nc.gov.

Jo Anne Honeycutt, Director for Career and Technical Education

**What work-based learning opportunities are included for high school students?**

None at this time. Any exposure is more appropriately handled within category 13.

**What career awareness/guidance activities are included in the pathway? (specify for middle and high school students):**

-Middle school students are provided an overview of a variety of career paths. These students are provided a broad spectrum of opportunities so they can start to hone in on a program of study. Middle school students are also exposed to New Tech High School’s pathways through CTE’s Middle School CDC whose main job is to provide middle school students and parents with the knowledge of programming available at New Tech High School (and all other programs offered within CTE). -Career Management is highly recommended for all students in order to narrow potential career choices that meet each student’s unique desires. Guest speakers, virtual field trips and actual field trips are part of this process. -YouthWork Internship opportunities are made available to students in specific fields of study that would match with computer programming career pathways. It is the goal of our community to insure students have work experiences related to potential career pathways over the course of high school to help students make wise choices.
