

Number and Operations

Goal: The learner will understand and compute with rational numbers

Objective:

1.03 Compare and order rational numbers.

To achieve this objective, students should:

- Graph, compare, and order positive and negative numbers (and 0).
- Use -2 , $-1\frac{1}{2}$, -1 , $-\frac{1}{2}$, 0 , $\frac{1}{2}$, 1 , $1\frac{1}{2}$, 2 and so on as benchmarks to estimate the values of other fractions.
- Recognize that a rational number could be represented by a terminating or repeating decimal.
