DEFINITION OF TERMS

1. **ABCs Flexibility** – In 1996, the General Assembly approved a law to give the State Board of Education the authority to implement the ABCs. The ABCs assign more responsibility at the school building level and allow schools flexibility to use funds as they are most needed at the school.
2. **Add-on** - Categorical dollars allocated over and above the base allotment.
3. **Allotted ADM** for each LEA is the higher of the first two months total projected ADM for the current year or the higher of the first two months total prior year ADM.
4. **Apportionment of Local Funds** - The certification of the distribution of local current expense funds by the State Board of Education when there is more than one LEA in a county.
5. **Average Daily Membership (ADM)** - The sum of the number of days in membership for all students in individual Local Education Agencies (LEAs), divided by the number of school days in the term. **Allotted ADM** for each LEA is the higher of the first 2 months total projected ADM for the current year or the higher of the first 2 months total prior year ADM.
6. **CFDA #** - A number that is assigned to each federal program for which a grant is awarded. The Catalog of Federal Domestic Assistance contains information for all federal grant programs such as grant authorization, who is eligible to apply, etc.
7. **Carryover** – Funds appropriated but unspent in the first fiscal year which are brought forward for expenditure in the succeeding fiscal year. Most allotments that carry over must be approved annually by the State Budget Office.
8. **Categorical Allotments** – Local school systems may use this funding to purchase all services necessary to address the needs of a specific population or service. The local school system must operate within the allotted funds. These funds may be used to hire personnel such as teachers, teacher assistants, and instructional support personnel or to provide a service such as transportation, staff development, or to purchase supplies and materials.
Examples: At Risk Student Services, Transportation, Children with Disabilities.
9. **Charter Schools** – A public school operated by a group of parents, teachers, and/or community members as a semi-autonomous school of choice within a school district operating under a “charter” with the State Board of Education. The final approval of all charters is granted by the State Board of Education. Charter schools are designed to give significant autonomy to individual schools and in turn hold these schools accountable for results.
10. **Dollar Allotments** – Local school systems can hire employees or purchase goods for a specific purpose, but the local system must operate within the allotted dollar amount.
Examples: Textbooks, Central Office Administration, Teacher Assistants.

11. **Dollars per ADM** - LEA's Initial Allotments divided by the allotted ADM for that LEA. Charter Schools receive an amount equal to the state funded dollars per ADM for the LEA in which the school is located or (for new charters) in which the student was previously enrolled.
12. **Dollars per Headcount** - Funds generated for school-aged children with special needs divided by the LEA's April 1 total headcount (not capped). Charter Schools receive an amount equal to the LEA's state funded dollars per headcount for the LEA in which the child was identified.
13. **ESEA** - Elementary and Secondary Education Act of 1965. This Act was amended by the No Child Left Behind Act of 2001.
14. **Full-time Equivalent** (FTE) - Sum of part-time positions employed when added together equate to a full-time position used within a classification.
Example: Two one-half time positions equate to one full-time equivalent position.
15. **Grade Level Proficiency** – Performance standards, called achievement levels, are one way that scores on the North Carolina End-of-Course Tests are reported. Students that score at or above level III are considered to be grade level proficient. Listed below are the four achievement levels:
 - Level I: Students performing at this level do not have sufficient mastery of knowledge and skills of the course to be successful at a more advanced level in the content area.
 - Level II: Students performing at this level demonstrate inconsistent mastery of knowledge and skills of the course and are minimally prepared to be successful at a more advanced level in the content area.
 - Level III: Students performing at this level consistently demonstrate mastery of the course subject matter and skills and are well prepared for a more advanced level in the content area.
 - Level IV: Students performing at this level consistently perform in a superior manner clearly beyond that required to be proficient in the course subject matter and skills and are very well prepared for a more advanced level in the content area.
16. **Handicapped (Children with Disabilities)** – Mentally retarded, hearing impaired, deaf, speech/language impaired, visually handicapped, autistic, behaviorally/emotionally disturbed, orthopedically impaired, other health impaired, traumatic brain injury, deaf-blind, multihandicapped, or specific learning disabled students who need special education and related services.
17. **Headcount** - This term refers to the process of actually counting the number of pupils who are defined as Children with Special Needs or Limited English Proficient. For federal purposes, children with special needs include only the handicapped. For state purposes, children with special needs include handicapped and pregnant students.

The federal government requires headcounts of children with special needs who have been properly identified, are receiving special education and related services on the headcount day, and have an individual education plan (IEP) or an individualized family service plan (IFSP). The December 1 IDEA Title VI-B Handicapped headcount includes those children ages 3 to 21 who are being served by LEAs, Charter Schools, or state-operated programs. State law requires an adjusted headcount on April 1 of children ages 5 to 20 who are being served by LEAs or Charter Schools and ages 3 to Pre-K 5 for Preschool handicapped funds. The April headcount includes additions or deletions to the December 1 headcounts and is used for state funding purposes.

18. **IDEA** - Individuals with Disabilities Education Act replaced the EHA Education of Handicapped Act for Title VI-B. Includes Title VI-B and Title VI-B Preschool Handicapped.
19. **Initial Allotments** – The allocation of state and federal funds to LEAs occurring after adjournment of the General Assembly.
20. **Months of Employment** - A unit of employment corresponding to a calendar month. The state allots a certain number of months of employment which can be assigned to a position, or a portion of a position, at the discretion of the LEA. Months of employment pertain to all position allotments which include Vocational Education and School Building Administration.

Example: If a LEA is allotted 100 months of employment, that LEA can hire 10 Vocational Education teachers for 10 months; or 8 teachers for 12 months and 1 teacher for 4 months; or any other combination which equals 100 months. Each allotment category must be reviewed for any special restrictions.
21. **NCLB** - On January 8, 2002, President Bush signed into law the **No Child Left Behind** Act of 2001. The Act is the most sweeping reform of the Elementary and Secondary Education Act (ESEA) since ESEA was enacted in 1965. It redefines the federal role in K-12 education and will help close the achievement gap between disadvantaged and minority students and their peers. It is based on four basic principles: stronger accountability for results, increased flexibility and local control, expanded options for parents, and an emphasis on teaching methods that have been proven to work.
22. **Planning Allotments** – The tentative allocation of state and federal funds to LEAs to provide information for budgeting purposes. These allotments occur during February preceding the fiscal year for which the initial allotment will be made.
23. **Positions** - Positions equate to the full-time equivalent individuals that can be assigned for the employment period represented by the allotment category. For example, a position in the classroom teacher allotment represents an employment period of 10 months. The number of full-time equivalent individuals that can be employed is limited to the number of months associated with the positions allotted by the state.
24. **Position Allotments** – The state allots positions to a local school system for a specific purpose. The local school system pays whatever is required to hire certified teachers and

other educators based on the state salary schedule, without being limited to a specific dollar amount. Each local school system will have a different average salary based on the certified personnel's experience and education. For more information see the State Salary Schedule Manual.

Example: Teachers, School Building Administration, Instructional Support Personnel.

25. **School** - An organizational subdivision of a school system consisting of a group of pupils composed of one or more grade groups, organized as one unit with an assigned principal, or person acting in the capacity of principal, to give instruction of the type defined in the N.C. Standard Course of Study, and housed in a school plant of one or more buildings. (See #9 for definition of Charter School)
26. **Student Accounting** - The data collection system regarding student enrollment, membership, attendance, and withdrawal from membership in the public schools. The Student Information Management System (SIMS), or other Uniform Education Reporting System (UERS) compliant systems, are the official means by which this data is reported to the Department of Public Instruction.
27. **Tydings Amendment** - Federal law provides that certain federal funds not obligated during the first year of allotment shall remain available for obligation and expenditure for one additional year. Federal grant periods vary; therefore, each grant must be reviewed to determine if the Tydings Amendment will apply. Since the federal fiscal year begins October 1st and the state fiscal year begins July 1st, many grant periods can be active up to 27 months when provisions of the Tydings Amendment are applicable.
28. **UERS** – Uniform Education Reporting System. The comprehensive system by which LEAs and Charter Schools report data electronically to the Department of Public Instruction. Some components of UERS include SIMS (Student Information Management System), and expenditure reporting in compliance with the Uniform Chart of Accounts.
29. **Year Round Education** - Reorganization of the school calendar into instructional blocks with vacations distributed across the calendar year so that learning is continuous throughout the year.

EMPLOYER BENEFIT COSTS

PROGRAM REPORT CODE: Various
 UNIFORM CHART OF ACCOUNTS CODE: X910-XXX-2X1
 STATUTORY REFERENCE: SB 1005 Section 32.21 and SB 1115 Section 32.21(b)

Benefit Rates:

Hospitalization	\$2,933 per year per full-time equivalent position
Social Security	7.65%
Retirement	3.03%

Effective July 13, 1989, a person must be a permanent employee as defined in the North Carolina Public School Employee Leave Policies, and must be employed for thirty or more hours per week in order for an LEA to submit the employee for enrollment in the State Retirement System and the State Health Insurance System. Charter Schools may elect to participate in the State Retirement System and the State Health Insurance System. Charter School decisions to enroll in the State Retirement System and State Health Insurance system are final.

Effective July 1, 1995, all employer salary-related contributions for full-time permanent employees, including hospitalization benefits, shall be prorated based on the actual percentage employed in each expenditure code.

APPORTIONMENT OF LOCAL FUNDS

In accordance with **G.S. 115C-430**, if there is more than one LEA in a county, all appropriations by the county to the local current expense funds of the LEAs, except appropriations funded by supplemental taxes levied less than county wide, must be apportioned according to the membership of each LEA. Membership for each LEA will be based on the allotted ADM. Students residing outside the county will be deducted from membership before the apportionment of local funds is calculated.

Membership for city LEAs located in more than one county will be divided on a percentage basis according to the number of students residing in each county at the end of the second school month of the prior year.

Should a Charter School be established within a LEA whose borders extend into more than one county, a breakdown of student membership for each of those counties will be obtained from the Charter School. This information will be used to calculate the revised ADM figures for the per capita distribution of local funds for the school system. As of the 2002-03 school year, Kannapolis City Schools, Kings Mountain District, and Nash-Rocky Mount Schools have borders that extend into more than one county.

To comply with the School Budget and Fiscal Control Act, the membership for the subject LEAs will be determined and certified to the LEA and the board of county commissioners by the Division of School Business.

TEXTBOOKS FOR THE VISUALLY IMPAIRED

LEAs may order Braille, large print, and audio-cassette tape copies of textbooks for children with disabilities whose Individualized Education Programs state that such modified textbooks are necessary to meet their unique learning needs.

Orders for modified textbooks must be submitted to the State Textbook Warehouse. These orders will be filled on a first-come first-served basis until the available state funds have been depleted. Once the fund for modified textbooks has been depleted, LEAs can use their textbook credit balance account to purchase modified textbooks.

Textbook Services shall have the authority to recall the modified textbooks for redistribution when no longer needed by children with special needs in any LEA.

Local boards of education may:

- (1) Select, procure, and use textbooks that have not been adopted by the State Board of Education for use throughout the local school administrative unit for selected grade levels and courses; and
- (2) Approve school improvement plans developed under **G.S. 115C-105.22** that include provisions for using textbooks that have not been adopted by the State Board of Education for selected grade levels and courses.

All textbook contracts made under this subsection shall include a clause granting to the local board of education the license to produce Braille, large print, and audiocassette tape copies of the textbooks for use in the local school administrative unit.

MERGED LEAs

If two or more LEAs are consolidated into one LEA, the following allotments shall not be less than those same allotments to the separate LEAs for the first and second full fiscal years of the consolidation and shall be used for the continuation of the positions and programs, except as specifically authorized by the State Board of Education.

1. Central Office Administration
2. Vocational Education Months of Employment
3. Children with Special Needs
- Preschool Handicapped
4. Limited English Proficiency

Additionally, those individual LEA's June 30 allotment balances which are subject to carryover provisions, will be consolidated by respective category for all LEAs within the merger and reallocated in total to the consolidated LEA.

For additional information related to minimum local funding of merged LEAs, see **G.S. 115C-68.1**, as enacted by the 1991 General Assembly.

ALLOTMENT ADJUSTMENTS FOR ADM GROWTH

PURPOSE:

The contingency reserve was established to support the average daily membership (ADM) based allotments. The reserve is to be used in cases where first month Average Daily Membership exceeds the original anticipated ADM used for allotments. This reserve should ensure that all pupils enrolled in a school system are fully supported by teachers, support personnel-certified, and all associated supplies and materials at the level appropriated for a specific formula.

OBJECTIVE:

In administering this allotment, the intent is to first ensure that adequate school based resources are provided to meet the average daily membership per LEA request as of the first month of school. The reserve will be allotted to LEAs on a case-by-case basis according to need. Secondly, (within available state funding) the reserve will be utilized to relieve class size overage problems as they may occur during the school year after the allotment adjustment for ADM growth. In the case of class size overage adjustments after the first month, allotments will only be made for regular teachers as authorized by **G.S. 115C-301**.

ADMINISTRATION:

These adjustments are to ensure that adequate school-based resources are provided (within appropriated funding/formulas) to meet the requirements after the first month of school per LEA request.

The allotment adjustments are based on first month average daily membership reports as submitted by the LEAs to the Division of School Business, Statistical Research Section.

After the first month of school, a LEA can request additional resources due to extraordinary student population growth that results in significant class size overage problems. Each request will be reviewed based on the criteria outlined below:

- The LEA's current month Average Daily Membership (ADM) will be compared to the LEA's Allotted ADM.
- Overall growth must be at least 2% or 100 students and the growth must have created significant class size overage problems that cannot be resolved by the LEA.
- Less growth will be considered if the growth and class size problem occurs within a specific grade or grade spans K-3, 4-8, 9-12, or within classes for children with disabilities.
- Individual school class sizes and the type of class structures (blocked, combined, etc.) will be examined. If reorganization or class restructuring can absorb the growth, additional allocations will not be made.

- The LEA must show a need for funding not already included in the regular ADM teacher allotment or children with disabilities programs.
- With receipt of a LEA's request, the Department of Public Instruction will verify that sufficient State resources are available to meet the LEA's request and will notify the LEA:
- If additional funding will be allotted to cover the LEA's ADM growth, or
- If the LEA's request for additional funding for ADM growth has been denied.

Additional funds will be allotted, within available funds, on a case-by-case basis. The State Board of Education, in accordance with **G.S. 115C-416**, may specifically authorize use of the reserve (within available state funding) on a case-by-case basis where additional resources are required to meet legislative mandates.

ALLOTMENT ADJUSTMENTS FOR ADM DECREASES**PURPOSE:**

In accordance with SB 1115, Section 7.20 (b), decreases to allotments must be made if the original anticipated ADM used for allotments exceeds first month Average Daily Membership (ADM). The funds from this adjustment will be added to the ADM Contingency Reserve to be used in cases where first or second month Average Daily Membership exceeds the original anticipated ADM. Decreases are made in the Classroom Teacher, Instructional Support, Non-instructional Support, Teacher Assistant, Classroom Materials and Supplies, Textbook, and Vocational Educational Program Support Categories as applicable.

OBJECTIVE:

In administering this reduction, the intent is to redistribute funds to ensure that adequate school based resources are provided to meet the average daily membership per LEA requests as of the first or second month of school.

ADMINISTRATION:

The allotment adjustments are based on the higher of the first or second month average daily membership reports as submitted by the LEAs to the Division of School Business, Statistical Research Section.

After the second month of school, the School Allotment Section will select the higher of the first two months of school ADM to determine if a decrease in funding is required. Each LEA will be reviewed based on the criteria outlined below:

- The LEA's higher of first or second month Average Daily Membership (ADM) will be compared to the LEA's Allotted ADM.
- Overall decrease must be at least 2% or 100 students to require an adjustment.
- The reduced allotment shall be based on the higher of first or second month ADM plus one-half of the number of students overestimated in the anticipated average daily membership.

SMALL SCHOOLS

STATUTORY REFERENCE:

Additional classroom teachers may be allotted within available funds based on the following provisions and upon request by the superintendent to the Office of Budget Management:

- a. Qualifying Programs Schools
 - Regional Programs: Special allotments may be made for assignment to regional programs serving public school students with disabilities. These programs must serve students from more than one LEA.
 - Hospitals, Special Programs, and Institutions: Special allotments may be made for assignment to hospitals which offer an educational component to students under their treatment.
 - Small Schools: Special allotments may be made for assignment to small schools of less than 100 ADM, when consolidation is not feasible due to geographic isolation.

- b. Qualifying Conditions:
 - The LEA must show a need for funding not already included in the regular ADM teacher allotment or children with disabilities programs.
 - The special small school allotment must not take the place of local efforts or result in a duplication of positions or funds allotted under the regular ADM teacher allotment or children with disabilities programs.
 - All regular positions earned on ADM at those sites must be used to directly serve the program for which the allotment is requested.
 - Proper assignment of regular ADM and children with disabilities funds must be documented before a special small school allotment can be approved.

- c. Continuation of Allotments: Special allotments are made on a year-by-year basis; however, special allotments will be continued for institutions and hospitals unless the following occurs:
 - The program has been discontinued;
 - A reduction in the number of students has occurred in the program which makes the allotment unnecessary; or,
 - State funding is not appropriated for this purpose.

- d. Allotment Appeals Process: The approval/denial of a request for a special small school allotment will be made initially by the School Allotments Section, Office of Budget Management. LEAs wishing to appeal a denial of their request may do so in writing to the Office of the Deputy Superintendent of Public Instruction. A final appeal for consideration may be made to the State Board of Education.
- e. Employment of Allotted Personnel: Special small school allotments go to the requesting LEA, not to the institution or hospital where the teacher is assigned. Therefore, teachers allotted through a special small school allotment are employees of, and should be supervised by the receiving LEA.
- f. Assigned Duties of Allotted Personnel: Teachers employed through the special small school allotment may not be assigned duties unrelated to the purpose for which their position was allotted or duties which enhance the profitability of the institution or hospital to which they are assigned.

=====

HISTORICAL REF: *The following is the Formula that was in effect from Fiscal Year 1996 through Fiscal Year 2001.*

Base Allotment

Each LEA receives a base allotment which is graduated based on allotted ADM. To determine the base, select the ADM range from the charts below and add the base and the supplemental base together.

Cities

<u>ADM Ranges</u>	<u>Base</u>	<u>ADM over-range</u>	<u>\$ per ADM over range</u>
0 - 4,999	\$360,000	0	\$12.00
5,000 - 9,999	420,000	4,999	36.01
10,000 - 14,999	600,000	9,999	18.00
Each addt'l 5,000	add 90,000	add 5,000	18.00

Counties

<u>ADM Ranges</u>	<u>Base</u>	<u>ADM over-range</u>	<u>\$ per ADM over range</u>
0 - 4,999	\$420,000	0	\$12.00
5,000 - 9,999	480,000	4,999	36.01
10,000 - 14,999	660,000	9,999	18.00
Each addt'l 5,000	add 90,000	add 5,000	18.00

Add-On Per ADM

After the base is allotted, the remaining funds are allocated to LEAs with ADM greater than 1,500 based on dollars per ADM.

SPECIAL PROVISIONS:

1. For FY 2000-01, all LEAs are held harmless to their FY 1999-00 allotment, unless they are a LEA which is losing its hold harmless provision due to merger. The formula will be phased-in as merged LEAs are no longer required to be held harmless and as funds are added to the budget.
2. Funds cannot be transferred into this category. Funds can be transferred out of this category by submitting an ABC transfer form.
3. Only expenditures for administrative personnel and matching benefits are allowed.
4. Refer to Merged LEAs - Section 01 (General Information, Subsection E).
5. Federal law requires a match for Child Nutrition

Supervisors. A State expenditure of \$7.33 million is necessary for North Carolina to be eligible for Section 4 federal funds. We do not anticipate a problem meeting this match requirement; however, if expenditures are projected to be below this level, a small percentage of this allotment might be required to be expended for Child Nutrition to assure the match is met.

6. In accordance with **G.S. 115C-271**, a local board may terminate a Superintendent's contract before the contract term of employment has expired if all of the following conditions are met:
 - (A) No state funds are used for this purpose.
 - (B) Local funds appropriated for teachers, textbooks, or classroom materials, supplies and equipment are not transferred or used for this purpose.
 - (C) The local board makes public the funds that are to be transferred or used for this purpose.
 - (D) The local Board notifies the State Board of the funds that are to be transferred or used for this purpose.
 - (E) No funds acquired through donation or fund-raising are used for this purpose, except funds raised specifically for this purpose or for funds donated by private for-profit corporations.

CHARTER SCHOOLS

PROGRAM REPORT CODE: 036
 UNIFORM CHART OF ACCOUNTS CODE: XXXX-036-XXX
 STATUTORY REFERENCE: G.S. 115C-238.29; SB 1005: Section 28.20; 28.26; 28.27

TYPE: Dollars
 TERM: July 1 - June 30

PURPOSE: Provides state funding to charter schools based on the students attending the school.

ELIGIBILITY: All Charter Schools approved by the State Board of Education.

FORMULAS: Funding for an existing Charter School is based on the dollars per ADM of the LEA in which the school is located. Funding for new Charter Schools is based on the dollars per ADM of the LEA in which the student is, or would be, currently enrolled. The total number of public school students attending a new Charter School will reduce a LEA's initial allotment.

A Charter School will have 34% of their Initial Allotment available to "draw down" after the General Assembly adjourns. Once ADM is established (end of 1st month), allotments will be recalculated based on the school's ADM and an additional 34% of it's allotment will be made available to the Charter School to access. If the Charter School's first month ADM is lower than the initially funded ADM, the Charter School's state allotments will be decreased. If charter student populations increase after the 1st month but within the ADM approved by the State, the State Contingency Reserve will be used to fund the increase (LEA allotments will not be reduced). The final 32% of the allotment will be distributed prior to the end of March.

In addition to the state funding based on dollars per ADM, a charter school may receive Children with Disabilities, Limited English Proficiency, and Improving Student Accountability funding **if they qualify**. These special funds plus the dollars per ADM funding are distributed under Program Report Code 036.

- SPECIAL PROVISION:
1. During the first 60 school days, if a child with disabilities was included in the prior fiscal year April 1 headcount and leaves or returns to a LEA from a Charter School, the prorata share of funds allocated for that child will be adjusted. In order to initiate the transfer of funds, the LEA or Charter School receiving the students must notify the School Allotments Section in writing by the 10th of the month following the month the child transferred. Notification must include the child's name, social security number, birth date, the LEA or Charter School from which the child came, the date the student transferred, and the beginning date of the current school year.
 2. A Charter School operating in its third year, that has not received any financial warnings during the two previous years, will receive the balance of its total allotment after the first month.

ELIGIBILITY: Each LEA is entitled to positions. The number of positions allotted is based on the formulas listed below.

FORMULAS: The following positions are calculated separately and then consolidated into PRC 001. The total positions are then multiplied by the LEA's average monthly salary (based on prior year 6th pay period plus legislated salary increases) plus benefits. The individual formulas are listed below.

After the first month of school, a LEA can request additional resources due to extraordinary student population growth. Allotments will be adjusted within available funds. (See General Information Section, Allotment Adjustment for ADM growth.)

For city LEAs with less than 3,000 ADM, fractions are rounded up to the nearest whole position.

CLASSROOM TEACHERS: Teachers are allotted based on one per the following number of students (based on allotted ADM) and rounded to the nearest one-half position.

<u>Grades</u>	<u>Number of Students</u>
K-1	18
2	20
3	22.23
4-6	22
7-8	21
9	24.5
10-12	26.64

NOTE: Preschool student ADM is not used in the teacher allotment formula. For allotment purposes,

TMH and self-contained children are included in their appropriate grades as determined by school administrators.

CLASS SIZE REQUIREMENTS:

<u>Grade</u>	<u>All Classes Within LEA Max. Average</u>	<u>Individual Class Maximum</u>
K-1	21	24
2	23	26
3-9	26	29
10-12	29	32

MATH/SCIENCE/COMPUTER TEACHERS:

Each county is entitled to one position. Positions will be divided between county and city LEAs based on previously approved plans. The percent split will remain in effect until the plan is revised and DPI is notified. Plans do not have to be submitted to DPI.

TARGETED CLASS SIZE REDUCTION:

1. In schools with 80% or more of the students eligible for free or reduced lunch and with 45% or more of the students performing below grade level, class size in grades K-3 will be 1:15. These additional teaching positions are required to teach in these grades at these targeted schools.
2. Contracts for all teachers in these targeted schools will be extended for 5 days in 2001-02 and 10 days in 2002-03. The first year days will be for staff development in methods to individualize instruction for smaller classes. The second year will add 5 instructional days. All of these expenditures for FY 2002-03 will be coded to PRC 093 – High Priority Schools.
3. The class size ratio for kindergarten and first grade will be 1:18 for all schools (excluding the ones targeted above).

SPECIAL PROVISIONS:

1. Refer to the School Attendance and Student Accounting Manual produced by the Division of School Business.
2. Additional classroom teachers may be allotted within available funds based on the provisions outlined in Section 01 and upon request by the superintendent to the Office of Budget Management. (See General Information Section- Small Schools)

3. It is encouraged that teachers generated for TMH and children with disabilities be used for TMH and children with disabilities.
4. **Senate Bill 765, Modified Section 1, General Statutes 115C-12(24)** states that LEAs shall use (i) the teachers allocated for students assigned to alternative learning programs pursuant to the regular teacher allotment and (ii) the teachers allocated to students assigned to alternative learning programs only to serve the needs of these students.
5. The State regulations permit LEAs to identify a state allotted teaching position (no additional positions are provided and no vocational education funds can be used) and use that position to pay a Junior ROTC instructor, provided the local school does employ another teacher using local funds to replace the use of the State allotted position. For each Junior ROTC position paid from State funds, a locally paid position must be provided.
6. Teachers on Loan - Additional positions may be allotted to LEAs which have teachers from their LEA selected to serve with the Department of Public Instruction. The teachers selected will work at designated LEAs throughout the State in support of major State Board of Education initiatives such as school assistance, teacher inductions, technology assessment/training, and student improvement. These additional teacher positions are allotted to the LEAs from which the teachers are employed since the reassigned teachers will remain on the LEA's payroll. The allotment will be in PRC 096 - Special Position Allotment or in PRC 095 - Special Dollar Allotment. For additional information, please contact the Division of School Improvement or the Division of Human Resource Management.
7. Teacher of the Year - An additional position (12 months) is allotted to the LEA from which the Teacher of the Year is selected. This allotment will also be allotted in PRC 096, Special Position Allotment.
8. All newly certified teachers (local & state) who have never taught before, or taught less than 6 months, are eligible for up to three extra days of employment for orientation and classroom preparation. This includes lateral entry teachers that are newly certified and have never taught before. If the teacher does not have zero years on his or her license due to non-teaching experience being credited, then the Salary Administration Section must approve the new teacher orientation funding. The teacher is to be paid appropriately

for the teacher's certification level and years of service. Eligible Teachers must be paid from pay code object 125 for the additional days of employment. The state will pay up to 3 days of training per eligible teacher based on the teacher's daily rate of pay. The School Allotments Section will allot funds beginning in March based on the number of eligible teachers paid, not to exceed 3 days per teacher. Once the number of participants and additional days of service are identified, your regular classroom teacher position allotment will be increased. The three additional new teacher orientation days must be completed by April 30th. Any new teachers hired after this date should go through orientation with the new teachers for the next fiscal year.

9. If a LEA plans to convert a position to contract for a visiting international faculty member, that unit may request the conversion of positions to dollar equivalents. This applies only to visiting international faculty programs.
 - To request the conversion, the LEA must submit the form entitled "Program Expansion Teacher Positions Request for Conversion to a Dollar Allotment" to the Division of Instructional Services. If approved, funds must be used in accordance with the plan submitted and approved.
 - Positions converted used to cover costs associated with bringing an international visiting faculty member to the LEA through the International Exchange Program will be converted at the legislated amount of \$43,682.
 - These positions must be used for teachers only.
10. Funds can only be transferred for Classroom Materials/Instructional Supplies/Equipment, exceptional children teachers, at-risk teachers, or textbooks. Funds can be transferred by submitting an ABC transfer form.

Each LEA must serve all students enrolled in a public or private high school (including charter schools) within the LEA boundaries who have not previously enrolled in the program.

ELIGIBILITY: Each LEA is entitled to funding based on ninth grade ADM including private and federal schools.

FORMULA: All available funds are distributed to LEAs based on dollars per total ninth grade allotted ADM, includes private, federal and charter schools.

- SPECIAL PROVISIONS:
1. No ABC transfers will be allowed to or from driver training.
 2. Disposition of cars purchased with Driver Training funds:

All transactions are handled by the Department of Administration, Division of Auxiliary Services, State Surplus Property.

 - a. Car Models Prior to 1992 - Funds from the sale of all car models prior to 1992 (models through 1991) are refunded to the Department of Public Instruction.
 - b. Car Models beginning with 1992 - Funds received from State Surplus Property for the sale of all car models after 1991 remain with the selling LEA. All proceeds should be used to support the LEA's driver education program.
 3. No more than 10% of driver education funds may be used for computer expenditures.
 4. Released Driver Training funds may be allotted to a local education agency based on the following provisions and upon request of the LEA's superintendent.

General

Some LEAs have excess funds in their Driver Training allotment due to contracting services. To prevent these funds from reverting June 30 when other LEAs have shortages in their allotments, the Department of Public Instruction requests that LEAs with excess funds release the funds early to be reallocated to LEAs requiring additional funds. LEA requests for additional funds will be granted based on the criteria in this policy as long as funds are available.

Qualifying Conditions

The LEA is expected to plan and budget for driver training expenses within their Driver Training allotment. In accordance with HB 229, Section 18.27 of the 1995 Session of the General Assembly, priority consideration for distributing these funds will be given to small and low wealth counties. These funds will be available to LEAs who make a written request because their allotment is not sufficient to operate their Driver Training program, and this insufficiency is beyond their control. The LEA must explain why more cost effective methods of operating the program have not been explored. If other options have been explored, the LEA must state why the alternative method will not be appropriate for their Driver Training program.

Request for Funds

1. The LEA must send a written request to the Department of Public Instruction, School Allotments Section, stating:
 - a. Why the additional funds are needed. (Provide details of the qualifying condition with supporting documentation.)
 - b. The amount needed. (Provide details of how this amount was determined.)
 - c. Why alternative methods of operating the program are not being used.
2. Request must be made by April 1st to allow time for processing and ensure expenditures are paid prior to June 30th.

Request Processing

1. The State will review each request to ensure it is within the guidelines of this policy. LEAs who have not used any current funds to purchase cars will be given priority consideration.
2. The funds will be allotted if the State determines the reason for the request is within the guidelines of the qualifying

conditions included in this policy, and the amount requested is within funds available. Additional funds allotted may not be used to purchase cars.

3. The allotment, if approved, will be made by April 15th .
4. If not approved, then a written letter of denial will be sent to the LEA indicating the reason for denial. Any reason for denial, other than insufficient funds, can be appealed to the Deputy Superintendent. A final appeal for consideration may be made to the State Board of Education.

LOW WEALTH COUNTIES SUPPLEMENTAL FUNDING

PROGRAM REPORT CODE: 031
 UNIFORM CHART OF ACCOUNTS CODE: XXX0-031-XXX
 STATUTORY REFERENCE: SB 1005 Section 28.6; 28.46

TYPE: Dollars
 TERM: July 1 - June 30

PURPOSE: To provide supplemental funds in counties that do not have the ability to generate revenue to support public schools (per a legislated formula) at the state average level. The funding is to allow those counties to enhance the instructional program and student achievement.

ELIGIBILITY: Eligible LEAs are those located in counties in which the calculated county wealth (per the legislated formula) is less than 100% of the state average wealth.

FORMULA: All data used for this formula will be the most recent data as of May 15, preceding the fiscal year of the allotment.

1. Compare a county's ability to generate revenue (using three criteria) with the average ability to generate revenue of the other 99 counties in the state.

Purpose:

The overall wealth of a county is considered critical in determining if a county can generate the necessary revenue to support the LEA(s) located within the county. The formula attempts to project the county's ability to generate revenue as compared to other counties in North Carolina.

Criteria:

- A. Anticipated Total County Revenue - This anticipated revenue is generated from the property value in the county plus the revenue a county actually receives from sources such as sales taxes, fines and forfeitures, and state reimbursements for items such as food stamps. The property value has been adjusted by a formula to take into consideration the year the property was last valued.
 - This calculation is projected to be almost 95% of all the revenue available to a county for current expense.
- B. Tax Base per Square Mile (Density) - This part of the formula compares the value of a county's property per square mile with the state average property value

per square mile. This calculation attempts to recognize the "swamp land" (low to no value property) across the state and to compare the quantity of this property with all other counties.

- C. Per Capita Income – A three-year average of a county's per capita income is compared to the same average for the total state. The per capita income is a basic indicator of a county's residents' ability to pay taxes.

2. Determine if a county is eligible to receive funding.

Purpose:

The factors outlined in Step 1 are weighted to determine how a county compares to all other counties in the state.

Criteria:

40% Anticipated Total County Revenue as a percentage of the State Average Anticipated State Revenue (see Step 1 (A)).

10% Tax Base per Square Mile as a percentage of the State Average Tax Base per Square Mile (see Step 1 (B)).

Combine the formula weights revenue/property as 50% of the calculation.

50% A county's Average per Capita Income as a percentage of the State Average per Capita Income (see Step 1 (C)).

When the three percentages are totaled, the sum indicates the county's wealth as a percentage of the state's average wealth. If the total is less than 100%, a county is eligible to receive funding.

3. Determine if a county is meeting a minimum effort to generate revenue or fund public schools as compared to a state average effort.

Purpose:

Minimum effort is established to determine if a county is committing a comparable effort compared to other counties within the State. To receive total funding, a county must be either taxing their local property at the State average or contributing more local dollars to public schools than the State average local contribution.

Criteria:

A county will be fundable at 100% of the calculated funding if at least one of the following conditions is met:

- (A) The county's actual tax rate is adjusted by a formula to take into consideration the year the property was last valued. The revised tax rate is classified as the Effective Tax Rate. If the county's Effective Tax Rate is higher than the state Average Effective Tax Rate, the county is fundable at 100% of the funding as calculated in the formula.

Counties that had effective tax rates in the prior fiscal year allotment that were above the State average effective tax rate but that had effective rates below the State average in the current fiscal year allotment shall receive reduced funding. This reduction shall be determined by subtracting the amount that the county would have received from the amount that the county would have received if qualified for full funding and multiplying the difference by ten percent. This method of calculating reduced funding shall apply one time only. This method shall not apply in cases in which the effective tax rate fell below the statewide average tax rate as a result of a reduction in the actual property tax rate. If the county documents that it has increased the per student appropriation to the school current expense fund in the current fiscal year, the State Board of Education shall include this additional per pupil appropriation when calculating minimum effort.

- (B) If the county's appropriation per student is higher than what the county could provide given the county's ability to generate wealth and an average effort to fund public schools, then a county is eligible for 100% funding. To determine what a county could provide, the State average contribution is multiplied by the county's wealth percentage (total percentage in Step 2 above).

A county will be funded at a percentage of the calculated funding in the formula if the county is eligible for funding and does not meet the two criteria outlined above. A county's funding will be based on the percentage a county is contributing to public schools as compared to what the county could contribute based on the county's wealth and an average state effort.

4. Calculation of what a County (LEA) will be funded.

Purpose:

Once a county is determined to be Low Wealth, the next step is to calculate the amount of supplemental funds the county will receive.

Criteria:

The difference between the county's Appropriation per student and State Average Local Appropriation (including supplemental taxes) per student is multiplied by the county's ADM for a total allotment per formula.

If the county does not meet the minimum effort as described in Step 3, their allotment is prorated based on the effort they are maintaining.

The total for all counties is prorated to the appropriated funds.

SPECIAL PROVISIONS:

1. Funds allotted for a Low Wealth Supplement must be expended only for:

- Instructional positions
- Substitutes
- Instructional support positions
- Teacher assistant positions
- Clerical positions
- Overtime pay
- Instructional equipment
- Instructional supplies and materials
- Staff development
- Fringe benefits
- Textbooks
- Supplements for instructional personnel and instructional support personnel

as defined in the UNIFORM CHART OF ACCOUNTS.

2. These funds are to supplement, not supplant, local funds. Funds will not be allocated to any LEA found to have used these funds to supplant local per student current expense funds.

A county is considered to have used these funds to supplant if the current expense appropriation per student of the county for the current year is less than 95% of the average

of the local current expense appropriations per student for the three prior fiscal years.

3. The State Board of Education will consider requests from LEAs to waive the non-supplant requirement as outlined in the legislated low wealth and small county supplemental funding formula only under the following conditions:

The county can show:

- that it has remedied the deficiency in funding, or that extraordinary circumstances caused the county to supplant local expense funds with funds allocated under this section.

Examples include:

- Closing/merging schools within an LEA.
- Loss of federal Impact Aid funds.
- Significant change in the demand for county resources due to state/federal unfunded mandates, natural disaster, or other emergency.

SCHOOL BUILDING ADMINISTRATION

PROGRAM REPORT CODE: 005
 UNIFORM CHART OF ACCOUNTS CODE: XXXX-005-XXX
 STATUTORY REFERENCE:

TYPE: Months of Employment (MOE's)
 TERM: 10, 11, or 12 months, July 1 - June 30

PURPOSE: Provides funding for salaries including benefits for principals and assistant principals.

ELIGIBILITY: Each LEA is entitled to months of employment. The months of employment allotted are based on the formulas listed below.

FORMULAS: Principal and Assistant Principal allotments have been consolidated to allow more flexibility at the local level. The allotments are calculated separately and then combined into one allotment.

PRINCIPALS: Each school with 100 or more pupils in final ADM and/or seven or more full-time equivalent state paid teachers (unrounded) (based on prior year 6th pay period) is entitled to twelve months of employment for a principal. Year-round schools, multi-track organizational patterns, and other sub-urbanization patterns developed within the existing framework of an established campus are not automatically entitled to additional months of employment. The total months are then multiplied by the LEA's average monthly salary (based on prior year 6th pay period plus legislated salary increases (LI)) plus benefits.

If a school opens on or after November 1, a principal allotment will be prorated based on the date of the school opening, within available funds. New school openings will be verified based on current year 2nd month ADM and/or FTE data as of 5th pay period. If the schools are not open, their principal allotment will be reduced.

ADM is based on the final ADM for the prior year as reported on the Principal Monthly Reports (PMR).

ASSISTANT PRINCIPALS: One month of employment per 76.12 allotted ADM rounded to the nearest whole month. The total months are then multiplied by the LEA's average monthly salary (based on prior year 6th pay period plus LI) plus benefits.

Fractions of months of employment are rounded up to the nearest month for small city LEAs with ADM less than 3,000 students.

SPECIAL PROVISIONS:

PRINCIPALS:

1. If a school does not meet the conditions specified above, then a teaching position must be used as principal of that school. Teachers employed as principals of schools with less than seven but more than two teachers should be paid for ten months on the appropriate pay level for principals within the "0-10" teacher classification as specified in the **North Carolina Public School Personnel State Salary Schedule**.
2. In the event the closing or reorganization of schools in an LEA causes a reduction in the principal allotment, the allotment will be held harmless the first and second fiscal years following the reduction of the principal allotment, provided that the reduction in the principal allotment continues in the second year.
3. A teacher may be reassigned to fill in for a principal after the principal has been on sick leave for at least ten (10) days. The reassignment shall be allowed until the principal returns to work or exhausts sick leave.
4. Funds can be transferred for any purpose by submitting an ABC transfer form. The salary transferred will be based on the statewide average.
5. Waivers for placement of Principals on the salary schedule for Low-Performing schools must be approved by the State Board of Education.
6. Upon the identification of a school as low-performing, The State Board shall proceed under General Statutes **115C-325(q)** for the dismissal of the principal assigned to that school.

The State Board shall suspend with pay a principal who has been assigned to a school for more than two years before the State Board identifies that school as low-performing and assigns an assistance team to that school. The State Board may suspend with pay a principal who has been assigned to a school for no more than two years.

The principals shall be suspended with pay pending a hearing within 60 days after suspension to determine whether the principal shall be dismissed. An additional allotment will be made to cover the salary of the principal while suspended.

7. The 1997 General Assembly established a 1% bonus for principals and assistant principals (**SB 352, Section 8.30**) if the school met or exceeded ABC goals or if they maintained a safe and orderly school.

An eligible administrator (principal or assistant principal) must have served at the same eligible school for a minimum of eight months to be eligible for the bonus or salary increase. Administrators serving multiple schools must be employed in an eligible school for more than 50% full-time equivalency over a minimum of eight months. No individual can receive more than a 1% bonus for meeting or exceeding ABC objectives or a 1% bonus for meeting the local board's safe school standards in one fiscal year. Administrators serving alternative schools will be eligible for a 1% lump sum payment if more than 50% of the schools sending students to the alternative school (feeder schools) meet or exceed ABC objectives. The alternative school is eligible for safe and orderly school classification based on local board policies.

8. A LEA can submit in writing to the School Allotments Section, a request for up to four additional principal months of employment for new schools (which will qualify for a principal allotment). This request needs to include the following information: school opening date, number of months requested, estimated ADM, estimated state-paid teacher FTEs, and the effective date that the principal begins the performance of administrative duties for the new school. This policy only applies to additional regular education schools opening within the district. It does not apply to alternative schools or schools that are replacing existing schools within the LEA. The allotment could be prorated based on the date that the request is received. The allotment of additional principal months will depend on the availability of funds.

- ASSISTANT PRINCIPALS:
1. These positions must be used only for non-teaching activities.
 2. LEAs may employ assistant principals for 10, 11, or 12 months. LEAs cannot exceed allotted months of employment.

3. Assistant principal months may be allotted within funds available to a LEA if the sub-organizational structure of a school within that LEA creates a distinct separate operating entity within an existing school such as an exceptional children wing of a school with integrated/shared programs. The allotments must be requested and appropriated on an annual basis. The LEA must show a need for funding not already included in the regular ADM assistant principal allotment or exceptional children programs. The identification of separate grade spans within a school does not qualify for additional funding under this provision.
4. Funds can be transferred for any purpose by submitting an approved ABC transfer form. The salary transferred will be based on the statewide average.
5. Refer to Special Provision 7 for principals. Assistant principals qualify for bonuses.

ESEA TITLE I - BASIC

PROGRAM REPORT CODE: 050
 UNIFORM CHART OF ACCOUNTS CODE: XXXX-050-XXX
 CFDA #: 84.010A

TYPE: Dollars
 TERM: Up to 27 months

PURPOSE: Provides funding to supplement and provide special help to educationally deprived children from low-income families.

ELIGIBILITY: Each LEA is entitled to funding based on the sum of the children (formula children) in the following populations:

1. Number of children in poverty age five through seventeen as identified in the most current census data.
2. Number of neglected children.
3. Number of children in foster homes.

Since there is no census poverty data available for charter schools, the following method for converting the charter school free lunch count to a poverty count has been authorized by the U. S. Department of Education.

1. A ratio is developed which defines the proportion of the total state free lunch count to the state total census poverty count.
2. The above ratio is then applied to the individual charter school free lunch count to establish a census poverty count for that charter school.

A LEA is eligible for "Basic" funding, if the number of formula children counted for allocation purposes is at least 10, and greater than two percent of the LEA's total population ages 5 to 17 years.

Application must be approved prior to the LEA receiving the allotment.

FORMULA: The U.S. Department of Education determines the allotment of funds to each LEA. Funds for Title I Basic grant-eligible charter schools are distributed as follows:

1. A ratio is developed which defines the proportion of formula children in all eligible charter schools to all formula children in the state.

2. The total state allocation (less reserves for school improvement and administration) is then reduced by the percentage determined in step 1.
3. The amount of the reduction is distributed to eligible charter schools on the basis of their individual proportion of formula children enrolled.

HOLD HARMLESS:

1. A LEA shall receive not less than 95% of the amount of funds received last year if the number of formula children is not less than 30% of the total number of children aged 5 to 17.
2. A LEA shall receive not less than 90% of the amount of funds received last year if the number of formula children is between 15% and 30% of the total number of children aged 5 to 17.
3. Number of A LEA shall receive not less than 85% of the amount of funds received last year if the number formula children is below 15% of the total number of children aged 5 to 17.

An LEA must meet the eligibility requirements in order for the hold harmless provisions to apply.

SPECIAL PROVISIONS:

1. Each grant can be awarded for a period of time beginning July 1st and ending September 30th of the following year. The Tydings Amendment can extend the grant period to 27 months by allowing unexpended funds as of September 30th to carry over for an additional 12 months. Funds are potentially available to LEAs/Charter Schools for 27 months, provided a timely project application is submitted each year. (Carryover funds are subject to applicable carryover percentage limitations.)
2. If a LEA/Charter School does not have an approved project by October 31st, any unexpended funds carried forward will be reduced from the LEA's/Charter School's budget.
3. If a LEA/Charter School receives an allocation greater than \$50,000 (total of Title 1 - Basic and Concentration funds), the amount of funds available for carryover into the following year (after September 30th) is limited to 15% of the current year's allocation. Funds in excess of percentage limitations will revert and be reallocated to eligible LEAs/Charter Schools unless a waiver is received and approved.

4. A LEA may request in writing to the Section Chief for Compensatory Education, School Improvement Division, that a waiver of the carryover percentage be granted. A waiver may be granted once every three years if it is determined that the request is reasonable and necessary, or if supplemental appropriations become available.
5. A LEA/Charter School may use a maximum of 15% of funds for administration and support. The 15% maximum is determined by comparing total administrative expenditures to total expenditures.
6. Effective with the 2003-04 fiscal year the administration cap will be reduced to 12%. For fiscal year 2004-05 the administration cap will be reduced to 10%. The administration cap in subsequent years will be contingent upon possible federal action on further study and review of administration.
7. A LEA/Charter School may request in writing to the Section Chief of Compensatory Education, Division of School Improvement, that a waiver of the administrative and support percentage be granted. A waiver may be granted if it is determined that the request is reasonable and necessary due to extraordinary circumstances or fluctuations in funding.
8. Excess carryover, and other funds reverting to the State, will be reallocated to those LEAs/Charter Schools determined eligible on the basis of increases in the number of low income families and greatest unmet educational needs. LEAs/Charter Schools having the greatest unmet educational needs will be determined based on criteria approved by the State Board of Education. Allotments to LEAs/Charter Schools selected on the basis of the approved criteria will not require prior approval by the State Board of Education. The Tydings Amendment can extend the grant period to 27 months by allowing unexpended funds as of September 30th to carryover for an additional 12 months. Funds are potentially available to LEAs/Charter Schools

for 27 months, provided a timely project application is submitted each year. (Carryover funds are subject to applicable carryover percentage limitations.)

2. If a LEA/Charter School does not have an approved project by October 31st, any unexpended funds carried forward will be reduced from the LEA's/Charter School's budget.
3. If a LEA/Charter School receives an allocation greater than \$50,000 (total of Title 1 - Basic and Concentration funds), the amount of funds available for carryover into the following year (after September 30th) is limited to 15% of the current year's allocation. Funds in excess of percentage limitations will revert and be reallocated to eligible LEAs/Charter Schools unless a waiver is received and approved. A LEA/Charter School reverting carryover funds is ineligible for reallocated funds.
4. A LEA may request in writing to the Section Chief for Compensatory Education, School Improvement Division, that a waiver of the carryover percentage be granted. A waiver may be granted once every three years if it is determined that the request is reasonable and necessary, or if supplemental appropriations become available.

6. Effective with the 2003-04 fiscal year the administration cap will be reduced to 12%. For fiscal year 2004-05 the administration cap will be reduced to 10%. The administration cap in subsequent years will be contingent upon possible federal action on further study and review of administration.
7. A LEA/Charter School may request in writing to the Section Chief of Compensatory Education, Division of School Improvement that a waiver of the administrative and support percentage be granted. A waiver may be granted if it is determined that the request is reasonable and necessary due to extraordinary circumstances or fluctuations in funding.

IDEA VI-B – CAPACITY BUILDING AND IMPROVEMENT

PROGRAM REPORT CODE: 044
 UNIFORM CHART OF ACCOUNTS CODE: XXXX-044-XXX
 CFDA #: 84.027A

TYPE: Dollars
 TERM: 27 Months

PURPOSE: To improve results for children with disabilities through:

- Direct services to children who are expelled or in a correctional facilities, state operated programs, or charter schools.
- Improvement strategies under the State's Improvement Plan, such as co-teaching, inclusion, early intervention, safe schools, and mentoring.
- Adoption of promising practices, materials, and technology.
- Implementation of interagency agreements.
- Problem solving between parents and school personnel.

ELIGIBILITY: All LEAs, Charter Schools and State Operated Programs are eligible. **Application must be approved prior to the LEA receiving the allotment.**

FORMULA: The amount of funding is determined by the LEA's/Charter School's/State Operated Program's December 1, IDEA VI-B headcount. A funding factor is developed by dividing the total funds available by the total head count. The per-child factor is then multiplied by each LEA's/Charter School's/State Operated Program's head count. The individual distribution is then adjusted to equal a minimum allocation of \$1,000.

Local Continuous Improvement Monitoring Steering Committee:

The Federal and State Monitoring of Exceptional Children Programs requires a self-assessment of the programs and services for children with disabilities as the first phase of the monitoring process. Local education agencies (including Charter Schools and State-Operated Programs) use a steering committee made up of parents, businesses, and community and school representatives to conduct the self-assessment. Local education agencies are monitored on a five-year cycle. Continuous Improvement Monitoring Steering Committee Allocations are designated to assist with the work of the steering committee. The allocation is based on \$1.00 per identified child with a disability with

\$1,000.00 minimum for LEAs with three or more schools with a maximum not to exceed \$10,000.00. LEAs with one or two schools have a \$500.00 minimum allocation. Funding will be based on the December 1 child count for LEAs being monitored.

- SPECIAL PROVISIONS:**
1. Each project is awarded funds for a period of time beginning July 1st and ending September 30th of the following fiscal year. The Tydings Amendment extends the grant period for an additional 12 months; therefore, each grant covers a period of 27 months. Funds will be available to LEAs/Charter Schools/State Operated Programs for 27 months provided a project is submitted each year.
 2. Funds allocated for local steering committees can be used for the following:
 - substitute teachers for teachers on the steering committee;
 - mileage for non-LEA personnel;
 - copying and binding cost of steering committee material;
 - mailings; and
 - other activities and materials needed to conduct activities of the steering committee.
 3. If the LEA/Charter School does not have an approved project by October 31st, any unexpended funds carried forward will be reduced from the LEAs/Charter School's budget.
