DEFINITION OF TERMS

1. **ABCs Flexibility** – In 1996, the General Assembly approved a law to give the State Board of Education the authority to implement the ABCs. The ABCs assign more responsibility at the school building level and allow schools flexibility to use funds as they are most needed at the school.

2. **Add-on** - Categorical dollars allocated over and above the base allotment.

3. **Allotted ADM** - The higher of the first two months total projected ADM for the current year or the higher of the first two months total prior year ADM.

4. **Apportionment of Local Funds** - The certification of the distribution of local current expense funds by the State Board of Education when there is more than one LEA in a county.

5. **Average Daily Membership (ADM)** - The sum of the number of days in membership for all students in individual Local Education Agencies (LEAs), divided by the number of school days in the term.

6. **CFDA #** - A number that is assigned to each federal program for which a grant is awarded. The Catalog of Federal Domestic Assistance contains information for all federal grant programs such as grant authorization, who is eligible to apply, etc.

7. **Carryover** – Funds appropriated but unspent in the first fiscal year that are brought forward for expenditure in the succeeding fiscal year. Most allotments that carry over must be approved annually by the State Budget Office.

8. **Categorical Allotments** – Local school systems may use this funding to purchase all services necessary to address the needs of a specific population or service. The local school system must operate within the allotted funds. These funds may be used to hire personnel such as teachers, teacher assistants, and instructional support personnel or to provide a service such as transportation, staff development, or to purchase supplies and materials.

   **Examples:** At Risk Student Services, Transportation, Children with Disabilities.

9. **Charter Schools** – A public school operated by a group of parents, teachers, and/or community members as a semi-autonomous school of choice within a school district operating under a “charter” with the State Board of Education. The final approval of all charters is granted by the State Board of Education. Charter schools are designed to give significant autonomy to individual schools and in turn hold these schools accountable for results.

10. **Dollar Allotments** – Local school systems can hire employees or purchase goods for a specific purpose, but the local system must operate within the allotted dollar amount.

   **Examples:** Textbooks, Central Office Administration, Teacher Assistants.

11. **Dollars per ADM** - LEA's Initial Allotments divided by the allotted ADM for that LEA. Charter schools receive an amount equal to the state funded dollars per ADM for the LEA in which the school is located or (for new charters) in which the student was previously enrolled.
12. **Dollars per Child Count** - Funds generated for school-aged children with special needs divided by the LEA's April 1 total child count (not capped). Charter schools receive an amount equal to the LEA's state funded dollars per child count for the LEA in which the child was identified.

13. **ESEA** - Elementary and Secondary Education Act of 1965. This act was amended by the No Child Left Behind Act of 2001.

14. **Full-time Equivalent (FTE)** - Sum of part-time positions employed when added together equate to a full-time position used within a classification.

   **Example**: Two one-half time positions equate to one full-time equivalent position.

15. **Grade Level Proficiency** – Performance standards, called achievement levels, are one way that scores on the North Carolina End-of-Course Tests are reported. Students that score at or above level III are considered to be grade level proficient. Listed below are the four achievement levels:

   Level I: Students performing at this level do not have sufficient mastery of knowledge and skills of the course to be successful at a more advanced level in the content area.

   Level II: Students performing at this level demonstrate inconsistent mastery of knowledge and skills of the course and are minimally prepared to be successful at a more advanced level in the content area.

   Level III: Students performing at this level consistently demonstrate mastery of the course subject matter and skills and are well prepared for a more advanced level in the content area.

   Level IV: Students performing at this level consistently perform in a superior manner clearly beyond that required to be proficient in the course subject matter and skills and are very well prepared for a more advanced level in the content area.

16. **Handicapped (Children with Disabilities)** – Mentally retarded, hearing impaired, deaf, speech/language impaired, visually handicapped, autistic, behaviorally/emotionally disturbed, orthopedic impairment, other health impaired, traumatic brain injury, deaf-blind, multi-handicapped, or specific learning disabled students who need special education and related services.

17. **Headcount/Child Count** - This term refers to the process of actually counting the number of pupils who are defined as Children with Special Needs or Limited English Proficient. For state purposes, children with special needs include handicapped and pregnant students.

   For federal purposes, children with special needs include only the handicapped.

   The federal government requires child counts of children with special needs who have been properly identified, are receiving special education and related services on the child count day, and have an individual education plan (IEP) or an individualized family service plan (IFSP). The December 1 IDEA Title VI-B Handicapped child count includes those children ages 3 to 21 who are being served by LEAs, charter schools, or state-operated programs. State law requires an adjusted child count on April 1 of children ages 5 to 20 who are being served by LEAs or charter schools and ages 3 to Pre-K-5 for Preschool handicapped funds. The April child count includes additions or deletions to the December 1 child counts and is used for state funding purposes.
18. **IDEA** - Individuals with Disabilities Education Act replaced the EHA - Education of Handicapped Act for Title VI-B. Includes Title VI-B and Title VI-B Preschool Handicapped.

20. **Months of Employment** - A unit of employment corresponding to a calendar month. The state allots a certain number of months of employment which can be assigned to a position, or a portion of a position, at the discretion of the LEA. Months of employment pertain to all position allotments which include Career Technical Education and School Building Administration (Assistant Principals).

Example: If a LEA is allotted 100 months of employment, that LEA can hire 10 Career Technical Education teachers for 10 months; or 8 teachers for 12 months and 1 teacher for 4 months; or any other combination which equals 100 months. Each allotment category must be reviewed for any special restrictions.

21. **NCLB** - On January 8, 2002, President Bush signed into law the No Child Left Behind Act of 2001. The Act is the most sweeping reform of the Elementary and Secondary Education Act (ESEA) since ESEA was enacted in 1965. It redefines the federal role in K-12 education and will help close the achievement gap between disadvantaged and minority students and their peers. It is based on four basic principles: stronger accountability for results, increased flexibility and local control, expanded options for parents, and an emphasis on teaching methods that have been proven to work.

22. **NC WISE** – North Carolina Window of Information on Student Education, NC WISE, is a web-based, integrated and secure tool that will replace SIMS to effectively manage student information and improve instruction in North Carolina schools. NC WISE provides teachers, principals, counselors, nurses, central office staff, and others with direct and immediate access to a full spectrum of data on a student's entire career in the North Carolina school system. NC WISE supports federal and state reporting requirements associated with No Child Left Behind, ABCs Accountability, School Report Card, and Closing The Gap.

23. **Planning Allotments** – The tentative allocation of state and federal funds to LEAs to provide information for budgeting purposes. These allotments occur during February, preceding the fiscal year for which the initial allotment will be made.

24. **Positions** - Positions equate to the full-time equivalent individuals that can be assigned for the employment period represented by the allotment category. For example, a position in the classroom teacher allotment represents an employment period of 10 months. The number of full-time equivalent individuals that can be employed is limited to the number of months associated with the positions allotted by the state.

25. **Position Allotments** – The state allots positions to a local school system for a specific purpose. The local school system pays whatever is required to hire certified teachers and other educators based on the State Salary Schedule, without being limited to a specific dollar amount. Each local school system will have a different average salary based on the certified personnel’s experience and education. For more information see the State Salary Schedule Manual.

Example: Teachers, School Building Administration (Principals) and Instructional Support Personnel.
26. **School** - An organizational subdivision of a school system consisting of a group of pupils composed of one or more grade groups, organized as one unit with an assigned principal, or person acting in the capacity of principal, to give instruction of the type defined in the N.C. Standard Course of Study, and housed in a school plant of one or more buildings. (See #9 for definition of charter school.)

27. **Student Accounting** - The data collection system regarding student enrollment, membership, attendance, and withdrawal from membership in the public schools. The Student Information Management System (SIMS), North Carolina Window of Information on Student Education (NC WISE) or other Uniform Education Reporting System (UERS) compliant systems, are the official means by which this data is reported to the Department of Public Instruction.

28. **Tydings Amendment** - Federal law provides that certain federal funds not obligated during the first year of allotment shall remain available for obligation and expenditure for one additional year. Federal grant periods vary; therefore, each grant must be reviewed to determine if the Tydings Amendment will apply. Since the federal fiscal year begins October 1st and the state fiscal year begins July 1st, many grant periods can be active up to 27 months when provisions of the Tydings Amendment are applicable.

29. **UERS** – Uniform Education Reporting System. UERS is the comprehensive system by which LEAs and Charter schools report data electronically to the Department of Public Instruction. Some components of UERS include SIMS (Student Information Management System) and expenditure reporting in compliance with the Uniform Chart of Accounts.

30. **Year Round Education** - Reorganization of the school calendar into instructional blocks with vacations distributed across the calendar year so that learning is continuous throughout the year.

Effective July 13, 1989, a person must be a permanent employee as defined in the North Carolina Public School Benefits and Employment Policy Manual, and must be employed for thirty or more hours per week in order for an LEA to submit the employee for enrollment in the State Retirement System and the State Health Insurance System. Charter schools may elect to participate in the State Retirement System and the State Health Insurance System. Charter school decisions to enroll in the State Retirement System and State Health Insurance system are final.

Effective July 1, 1995, all employer salary-related contributions for full-time permanent employees, including hospitalization benefits, shall be prorated based on the actual percentage employed in each expenditure code.

APPORTIONMENT OF LOCAL FUNDS

In accordance with G.S. 115C-430, if there is more than one LEA in a county, all appropriations by the county to the local current expense funds of the LEAs, except appropriations funded by supplemental taxes levied less than county wide, must be apportioned according to the membership of each LEA. Membership for each LEA will be based on the allotted ADM. Students residing outside the county will be deducted from membership before the apportionment of local funds is calculated.

Membership for city LEAs located in more than one county will be divided on a percentage basis according to the number of students residing in each county at the end of the second school month of the prior year.

If a Charter school is established within a LEA whose borders extend into more than one county, a breakdown of student membership for each of those counties will be obtained from the Charter School. This information will be used to calculate the revised ADM figures for the per capita distribution of local funds for the school system. As of the 2004-05 school year, Kannapolis City Schools and Nash-Rocky Mount Schools have borders that extend into more than one county.

To comply with the School Budget and Fiscal Control Act, the membership for the subject LEAs will be determined and certified to the LEA and the board of county commissioners by the Division of School Business.
TEXTBOOKS FOR THE VISUALLY IMPAIRED

LEAs may order Braille, large print, and audio-cassette tape copies of textbooks for children with disabilities whose Individualized Education Programs state that such modified textbooks are necessary to meet their unique learning needs.

Orders for modified textbooks must be submitted to the State Textbook Warehouse. These orders will be filled on a first-come first-served basis until the available state funds have been depleted. Once the fund for modified textbooks has been depleted, LEAs can use their textbook credit balance account to purchase modified textbooks.

Textbook Services shall have the authority to recall the modified textbooks for redistribution when no longer needed by children with special needs in any LEA.

Local boards of education may:

1. Select, procure, and use textbooks that have not been adopted by the State Board of Education for use throughout the local school administrative unit for selected grade levels and courses; and

2. Approve school improvement plans developed under G.S. 115C-105.22 that include provisions for using textbooks that have not been adopted by the State Board of Education for selected grade levels and courses.

All textbook contracts made under this subsection shall include a clause granting to the local board of education the license to produce Braille, large print, and audiocassette tape copies of the textbooks for use in the local school administrative unit.

MERGED LEAs

If two or more LEAs are consolidated into one LEA, the following allotments shall not be less than those same allotments to the separate LEAs for the first and second full fiscal years of the consolidation and shall be used for the continuation of the positions and programs, except as specifically authorized by the State Board of Education.

1. Central Office Administration
2. Career Technical Education Months of Employment
3. Children with Special Needs - Preschool Handicapped
4. Limited English Proficiency

Additionally, individual LEAs with June 30 allotment balances that are subject to carryover provisions will be consolidated by respective category for all LEAs within the merger and reallocated in total to the consolidated LEA.

For additional information related to minimum local funding of merged LEAs, see G.S. 115C-68.1, as enacted by the 1991 General Assembly.
**ALLOTMENT ADJUSTMENTS FOR ADM GROWTH**

**PURPOSE:**
The contingency reserve was established to support the average daily membership (ADM) based allotments. The reserve is to be used in cases where first month Average Daily Membership exceeds the original anticipated ADM used for allotments. Increases will be made in the Classroom Teacher, Instructional Support, Non-instructional Support, Teacher Assistant, Classroom Materials and Supplies, Textbook, and Career Technical Educational Program Support categories as applicable.

**OBJECTIVE:**
In administering this allotment, the intent is to first ensure that adequate school-based resources are provided to meet the average daily membership as of the first month of school, per LEA request. The reserve will be allotted to LEAs on a case-by-case basis according to need. Secondly, (within available state funding) the reserve will be utilized to relieve class size overage problems as they may occur during the school year after the allotment adjustment for ADM growth. In the case of class size overage adjustments after the first month, allotments will only be made for regular teachers as authorized by G.S. 115C-301.

**ADMINISTRATION:**
These adjustments are to ensure that adequate school-based resources are provided (within appropriated funding/formulas) to meet the requirements after the first month of school per LEA request.

The allotment adjustments are based on first month average daily membership reports as submitted by the LEAs to the Division of School Business.

After the first month of school, a LEA can request additional resources due to extraordinary student population growth that results in significant class size overage problems. Each request will be reviewed based on the criteria outlined below:

- The LEA’s current month Average Daily Membership (ADM) will be compared to the LEA’s Allotted ADM.
- Overall growth must be at least 2% or 100 students and the growth must have created significant class size overage problems that cannot be resolved by the LEA.
- Less growth will be considered if the growth and class size problem occurs within a specific grade or grade spans K-3, 4-8, 9-12, or within classes for children with disabilities.
- Individual school class sizes and the type of class structures (blocked, combined, etc.) will be examined. If reorganization or class restructuring can absorb the growth, additional allocations will not be made.
- The LEA must show a need for funding not already included in the regular ADM teacher allotment or children with disabilities programs.
With receipt of a LEA's request, the Department of Public Instruction will verify that sufficient State resources are available to meet the LEA's request and will notify the LEA:

- If additional funding will be allotted to cover the LEA's ADM growth, or
- If the LEA’s request for additional funding for ADM growth has been denied.

Additional funds will be allotted, within available funds, on a case-by-case basis. The State Board of Education, in accordance with G.S. 115C-416, may specifically authorize use of the reserve (within available state funding) on a case-by-case basis where additional resources are required to meet legislative mandates.

**ALLOTMENT ADJUSTMENTS FOR ADM DECREASES**

**PURPOSE:**
In accordance with HB 1473 Section 7.14 (b), decreases to allotments must be made if the original anticipated ADM used for allotments exceeds the higher of the first or second month Average Daily Membership (ADM) by at least 2% or 100 students. The funds from this adjustment will be added to the ADM Contingency Reserve to be used in cases where first month Average Daily Membership exceeds the original anticipated ADM. Decreases are made in the Classroom Teacher, Instructional Support, Non-instructional Support, Teacher Assistant, Classroom Materials and Supplies, Textbook, and Career Technical Educational Program Support Categories as applicable.

**OBJECTIVE:**
In administering this reduction, the intent is to redistribute funds to ensure that adequate school based resources are provided to meet the average daily membership as of the first month of school.

**ADMINISTRATION:**
The allotment adjustments are based on the higher of the first or second month average daily membership reports as submitted by the LEAs to the Division of School Business. After the second month of school, the School Allotment Section will select the higher of the first two months of school ADM to determine if a decrease in funding is required. Each LEA will be reviewed based on the criteria outlined below:

- The LEA's higher of first or second month Average Daily Membership (ADM) will be compared to the LEA's Allotted ADM.
- Overall decrease must be at least 2% or 100 students to require an adjustment.
- The reduced allotment shall be based on the higher of first or second month ADM plus one-half of the number of students overestimated in the anticipated average daily membership.
**SUBSTITUTE PAY**

PROGRAM REPORT CODE: XXX  
UNIFORM CHART OF ACCOUNTS CODE: XX00-XXX-16X  
STATUTORY REFERENCE:

With the ratification of the School Flexibility and Accountability Bill (House Bill 6) in July of 1995, Substitute Pay for classroom teachers and instructional support personnel is allotted with Non-Instructional Support Personnel (PRC 003). Substitute Pay from other State allotments such as Career Technical Education, Staff Development, and Children with Disabilities, as well as federal programs, may still be paid from their respective categorical allotments.

Substitutes who hold teacher certificates shall receive a minimum of 65% of the daily pay rate of an entry-level teacher with an "A" certificate ($90) per day for FY 2008-09. Substitutes who are non-certified shall receive a minimum of 50% of the daily pay rate of an entry-level teacher with an "A" certificate ($69) per day for FY 2008-09. The pay for non-certified substitutes shall not exceed the pay of certified substitutes. Deductions in salaries for teachers on leave who require a deduction in salary for substitute pay shall be at a standard rate of $50.00 per day.

In accordance with [G.S. 115C-12(8) Section 18.4](https://www.ncpublicschools.org/fbs/finance/salary/), the $50 deducted from a teachers pay will be reallocated to Non-instructional Support Personnel (PRC 003) on a monthly basis. The additional allocation is based on absence codes included on teacher payroll records.

### ABCs TRANSFER OF FUNDS

**STATUTORY REFERENCE:** G.S. 115C-105.25 Budget Flexibility

The ABCs of public education enables LEAs to have flexibility in their funding. Transfers of funding and/or position allotments are to be submitted to the School Allotments Section of the [Division of School Business](http://www.ncpublicschools.org/fbs/finance/salary/). No financial State Board of Education waivers are required. **All** positions/months are transferred at the statewide average salary. If converting one of the following guaranteed certified positions:

- Instructional Support

For the purpose of paying for a different certified position from that being transferred into PRC 010 (Certified Positions converted to dollars), the dollar amount converted will equal the average salary of the position including benefits. The salary of the position to be paid from PRC 010 will be a dollar allotment and not a guaranteed salary. Converting certified position allotments to dollars for the purpose of hiring the same type position is not allowable.

No transfers will be allowed to or from the following categories:

- ABC Incentive Award
- Children with Disabilities Special Funds (PRC 063)
- Driver Training
- Limited English Proficiency
- Low Wealth Supplemental Funding
- School Technology
- Small County Supplemental Funding

- Classroom Teachers: Transfers from teachers are restricted to classroom materials/instructional supplies/equipment, exceptional children teachers, at-risk teachers, and textbooks.
- Teacher Assistants: Transfers into teacher assistants are acceptable. If included in a school's plan, transfers from teacher assistants to dollars for classroom teachers for grades K-3 (PRC 008) are allowed. Teacher assistant positions must be vacant to transfer. **Grade placement may be waived if it is in a school's improvement plan to serve students primarily in grades K-3 when the personnel are assigned to an elementary school to serve the whole school.**
- Transportation funds may be transferred but will impact efficiency ratings.
- Career Technical Education: Funds may be transferred between Months of Employment (MOEs) and Program Support. Transfers out of Career Technical Education (MOEs) for other categories may not exceed the average state salary increase for the current fiscal year based on the promulgated rules established by the State Board of Education to
comply with federal regulations.

- Transfers of more than 5% of an allotment category may require additional justification, including submission of a school improvement plan.

- The final date for transfers is May 27, 2009. Transfers received after this date cannot be approved.

**SMALL SCHOOLS**

**STATUTORY REFERENCE:**

Additional classroom teachers may be allotted within available funds based on the following provisions and upon request by the superintendent to the Division of School Business:

a. **Qualifying Programs Schools**

   - Regional Programs: Special allotments may be made for assignment to regional programs serving public school students with disabilities. These programs must serve students from more than one LEA.

   - Hospitals, Special Programs, and Institutions: Special allotments may be made for assignment to hospitals which offer an educational component to students under their treatment.

   - Small Schools: Special allotments may be made for assignment to small schools of less than 110 ADM, when consolidation is not feasible due to geographic isolation.

b. **Qualifying Conditions:**

   - Consideration will be given to small, geographically isolated schools over other qualifying programs and schools.
• The LEA must show a need for funding not already included in the regular ADM teacher allotment or children with disabilities programs.

• The special small school allotment must not take the place of local efforts or result in a duplication of positions or funds allotted under the regular ADM teacher allotment or children with disabilities programs.

• All regular positions earned on ADM at those sites must be used to directly serve the program for which the allotment is requested.

• Proper assignment of regular ADM and children with disabilities funds must be documented before a special small school allotment can be approved.

c. **Continuation of Allotments:** Special allotments are made on a year-by-year basis; however, special allotments will be continued for institutions and hospitals unless the following occurs:

  • The program has been discontinued.

  • A reduction in the number of students has occurred in the program which makes the allotment unnecessary.

  • State funding is not appropriated for this purpose.

d. **Allotment Appeals Process:** The approval/denial of a request for a special small school allotment will be made initially by the School Allotments Section, Division of School Business. LEAs wishing to appeal a denial of their request may do so in writing to the Office of the Deputy Superintendent of Public Instruction. A final appeal for consideration may be made to the State Board of Education.

e. **Employment of Allotted Personnel:** Special small school allotments go to the requesting LEA, not to the institution or hospital where the teacher is assigned. Therefore, teachers allotted through a special small school allotment are employees of and should be supervised by the receiving LEA.

f. **Assigned Duties of Allotted Personnel:** Teachers employed through the special small school allotment may not be assigned duties unrelated to the purpose for which their position was allotted or duties which enhance the profitability of the institution or hospital to which they are assigned.

**Add-On Per ADM**
After the base is allotted, the remaining funds are allocated to LEAs with ADM greater than 1,500 based on dollars per ADM.

**SPECIAL PROVISIONS:**

1. For FY 2000-01, all LEAs are held harmless to their FY 1999-00 allotment, unless they are a LEA which is losing its hold harmless provision due to merger. The formula will be phased-in as merged LEAs are no longer required to be held harmless and as funds are added to the budget.

2. Funds cannot be transferred into this category. Funds can be transferred out of this category by submitting an [ABC Transfer Form](#).
3. Only expenditures for administrative personnel and matching benefits are allowed.

4. Refer to the General Information Section – Merged LEAs.

5. Federal law requires a match for Child Nutrition Supervisors. A State expenditure of $7.33 million is necessary for North Carolina to be eligible for Section 4 federal funds. If expenditures are projected to be below this level, a small percentage of this allotment might have to be expended for Child Nutrition to assure the match is met.

6. In accordance with G.S. 115C-271, a local board may terminate a Superintendent's contract before the contract term of employment has expired if all of the following conditions are met:
   
   a) No state funds are used for this purpose.
   
   b) Local funds appropriated for teachers, textbooks, or classroom materials, supplies and equipment are not transferred or used for this purpose.
   
   c) The local board makes public the funds that are to be transferred or used for this purpose.
   
   d) The local Board notifies the State Board of the funds that are to be transferred or used for this purpose.
   
   e) No funds acquired through donation or fund-raising are used for this purpose, except funds raised specifically for this purpose or for funds donated by private for-profit corporations.
**CHARTER SCHOOLS**

**PROGRAM REPORT CODE:** 036  
**UNIFORM CHART OF ACCOUNTS CODE:** XXXX-036-XXX  
**STATUTORY REFERENCE:** G.S. 115C-238.29; SB 1005: Section 28.20; 28.26; 28.27

**TYPE:** Dollars  
**TERM:** July 1 - June 30  
**PURPOSE:** Provides state funding to charter schools based on the students attending the school.

**ELIGIBILITY:** All charter schools approved by the State Board of Education.

**FORMULAS:**

Funding for an existing charter school is based on the dollars per ADM of the LEA in which the school is located. Funding for new charter schools is based on the dollars per ADM of the LEA in which the student is, or would be, currently enrolled. The total number of public school students attending a new charter school will reduce a LEA’s initial allotment.

A LEA’s initial allotment is also reduced for existing charter schools growing over their planning ADM. LEAs are held harmless and will not have their allotment reduced for the following categories: Central Office Administration, School Building Administration and Staff Development.

A charter school will have 34% of its Initial Allotment available to "draw down" after the General Assembly adjourns. After the 1st month ADM is submitted, allotments will be recalculated and an additional 34% of the allotment will be made available to the charter school. If the charter school's first month ADM is lower than the initially funded ADM, the charter school's state allotments will be decreased. If charter student population increases after the 1st month, an analysis will be performed to determine if the additional students will be reduced from the LEA or funded from the State Contingency Reserve (up to the charter school’s maximum ADM). The final 32% of the allotment will be distributed prior to the end of March.

After 1st month ADM adjustments, a charter school can request additional funding if it has significant growth (10% or more) in months two through four. Requested ADM must be verified and be within the charter school’s maximum. The state contingency reserve will be used to fund the prorated increases within funds available. Please refer to the Charter School Financial Guide for instructions for this process.

In addition to the state funding based on dollars per ADM, a charter school may receive Children with Disabilities and Limited English Proficiency funding if they qualify. These special funds plus the dollars per ADM funding are distributed under Program Report Code 036.

**SPECIAL PROVISIONS:**

1. During the first 60 school days, if a child with disabilities was included in the prior fiscal year April 1 child count and leaves or returns to a LEA from a charter school, the
prorated share of funds allocated for that child will be adjusted. In order to initiate the transfer of funds, the LEA or charter school receiving the students must complete the appropriate transfer request forms by the 10th of the month following the month the child transferred. Children with Disabilities’ transfer requests are sent to the School Allotments Section. Please refer to www.ncpublicschools.org/fbs/allotments/forms/ for the Children with Disabilities transfer form. Notification must include the student’s name, CECAS Unique ID, birth date, the LEA or charter school from which the child came, the date the student transferred, and the beginning date of the current school year.

2. A charter school operating in its third year or longer that has not received any financial warnings during the two previous years will receive the balance of its total allotment after the first month.

3. Funding for 1st Month ADM increases will be reduced from the LEA in which the charter school resides if the LEA is declining in ADM after second month. If the LEA is increasing in ADM after the second month, the funding will come from the Contingency Reserve.

4. Charter schools will receive an allocation of fines and forfeitures based on dollars per allotted ADM in PRC 036. Unspent funds will revert June 30.

5. The State Board of Education may spend up to $50,000 from State Aid to Local School Administrative units for the 2008-09 fiscal year to evaluate charter schools. (HB 1473, Section 7.16(a)

5. The State regulations permit LEAs to identify a state allotted teaching position (no additional positions are provided and no Career Technical education funds can be used) and use that position to pay a Junior ROTC instructor, provided the local school does employ another teacher using local funds to replace the use of the State allotted position. For each Junior ROTC position paid from State funds, a locally paid position must be provided.

6. Teachers on Loan Additional positions may be allotted to LEAs which have teachers from their LEA selected to serve with the Department of Public Instruction. The teachers selected will work at designated LEAs throughout the State in support of major State Board of Education initiatives such as school assistance, teacher inductions, technology assessment/training, and student improvement. These additional teacher positions are allotted to the LEAs from which the teachers are employed since the reassigned teachers will remain on the LEA's payroll. For additional information, please contact the Division of School Improvement or the Recruitment Section.

This includes lateral entry teachers that are newly certified and have never taught before. If the teacher does not have zero years on his or her license due to non-teaching experience being credited, then the Salary Administration Section must approve the new teacher orientation funding. The teacher is to be paid appropriately for the teacher's certification level and years of service. Eligible Teachers must be paid from pay code object 125 for the additional days of employment. The state will pay up to 3 days of training per eligible teacher based on the teacher's daily rate of pay. The School Allotments Section will allot funds beginning in March based on the number of eligible teachers paid, not to exceed 3 days per teacher. Once the number of participants and additional days of service are identified, your regular classroom teacher position allotment will be increased. The three additional new teacher orientation days must be completed by April 30th. Any new teachers hired after this date should go through orientation with the new teachers for the next fiscal year.

9. If a LEA plans to convert a position to contract for a Visiting International Faculty (VIF) member, that unit may request the conversion of positions to dollar equivalents. This applies only to VIF programs.
   - To request the conversion, the LEA must submit the form entitled "Program Expansion Teacher Positions Request for Conversion to a Dollar Allotment" to the Division of Pre-Kindergarten and Elementary Education. If approved, funds must be used in accordance with the plan submitted and approved.

   - These positions must be used for teachers only.

10. Funds can only be transferred for Classroom Materials / Instructional Supplies / Equipment, exceptional children teachers, at-risk teachers, or textbooks. Submit an ABC Transfer Form to transfer funds. Converting certified position allotments to dollars for the purpose of hiring the same type position is not allowable.

TERM: July 1 through June 30

PURPOSE: To address the capacity needs of local school administrative units to meet the needs of disadvantage students.

ELIGIBILITY: All LEAs are eligible for funding that have an approved plan.

Step 1: Use the average statewide (K-12) teacher-to-student classroom teacher allotment for the Fundable Disadvantaged Population which is 1:21.

Step 2: The targeted allotment ratios for the Fundable Disadvantaged Population are:
- If low wealth % (per low wealth supplemental funding formula) is > 90%, one teacher per 19.9 students
- If low wealth % is >= 80% but <= 90%, one teacher per 19.4 students.
- If low wealth % is < 80%, one teacher per 19.1 students.
- If an LEA received DSSF funds in FY 2005-06, one teacher per 16 students. These 16 LEAs will not receive less funding than they received in FY 2006-07.

Step 3: Convert the teaching positions to dollars by using the state average teacher salary (including benefits).

SPECIAL PROVISIONS:
1. The LEAs receiving Disadvantaged Student Supplemental funding must implement a plan jointly developed by the local administrative unit and the Local Education Agency Assistance Program (LEAAP) team. The plan shall:
   a. be based on the needs of the students in the unit that are not achieving grade-level proficiency.

   A local education agency receiving funds shall use the funds to supplement, not supplant, local current expense funds. The State Board of Education shall not allocate funds under this section to a county found to have used these funds to supplant local, per-student current expense funds. The SBE shall make a finding that a county has used these funds to supplant local current expense funds in the prior year, or the year for which the most recent data are available, if:
   a. The current expense appropriation per student of the county for the current year is less than ninety-five percent (95%) of the average of the local current expense appropriations per student for the three prior fiscal years; and
   b. The county cannot show: (i) that it has remedied the deficiency in funding or (ii) that extraordinary circumstances caused the county to supplant local current expense funds with funds allocated under this section.

4. Pooling of Additional State Funding:
   LEAs receiving funding should use, at a minimum, increases in their categorical allotments (such as low wealth supplemental funding, small county supplemental funding, at-risk, and improving student accountability funding) to pool resources to supplement the Disadvantaged Student Supplemental Funding to address teacher retention and student performance improvements.

5. If a local school administrative unit’s wealth increases to a level that adversely affects the unit’s DSSF allotment ratio, the DSSF allotment for that unit shall be maintained at the prior year level for one additional fiscal year. (HB 1473, Section 7.1(d))

LEA requests for additional funds will be granted based on the criteria in this policy as long as funds are available.

2. The funds will be allotted if the State determines the reason for the request is within the guidelines of the qualifying conditions included in this policy, and the amount requested is within funds available. Additional funds allotted may not be used to purchase cars.

3. The allotment, if approved, will be made by April 15th.

4. If not approved, then a written letter of denial will be sent to the LEA indicating the reason for denial. Any reason for denial, other than insufficient funds, can be appealed to the Deputy Superintendent. A final appeal for consideration may be made to the State Board of Education.

LOW WEALTH COUNTIES SUPPLEMENTAL FUNDING

PROGRAM REPORT CODE: 031
UNIFORM CHART OF ACCOUNTS CODE: XXX0-031-XXX
STATUTORY REFERENCE: SB 622, Section 7.6

TYPE: Dollars
TERM: July 1 - June 30
PURPOSE: To provide supplemental funds in counties that do not have the ability to generate revenue to support public schools (per a legislated formula) at the state average level. The funding is to allow those counties to enhance the instructional program and student achievement.

ELIGIBILITY: Eligible LEAs are those located in counties in which the calculated county wealth (per the legislated formula) is less than 100% of the state average wealth.

FORMULA:
All data used for this formula will be the most recent data as of May 15, of the preceding fiscal year of the allotment.

1. Compare a county's ability to generate revenue (using three criteria) with the average ability to generate revenue of the other 99 counties in the state.

   Purpose:
The overall wealth of a county is considered critical in determining if a county can generate the necessary revenue to support the LEA(s) located within the county. The formula attempts to project the county's ability to generate revenue as compared to other counties in North Carolina.

   Criteria:
   a. **Anticipated Total County Revenue** - This anticipated revenue is generated from the property value in the county plus the revenue a county actually receives from sources such as sales taxes and fines and forfeitures. The property value has been adjusted by a formula to take into consideration the year the property was last valued. This calculation is projected to be almost 95% of all the revenue available to a county for current expense.

   b. **Tax Base per Square Mile (Density)** - This part of the formula compares the value of a county's property per square mile with the state average property value per square mile. This calculation attempts to recognize the "swamp land" (low to no value property) across the state and to compare the quantity of this property with all other counties.

   c. **Per Capita Income** – A three-year average of a county's per capita income is compared to the same average for the total state. The per capita income is a basic indicator of a county's residents' ability to pay taxes.
2. Determine if a county is eligible to receive funding.

   **Purpose:**
   The factors outlined in Step 1 are weighted to determine how a county compares to all other counties in the state.

   **Criteria:**
   40% Anticipated Total County Revenue as a percentage of the State Average Anticipated State Revenue (see Step 1 (a)).
   10% Tax Base per Square Mile as a percentage of the State Average Tax Base per Square Mile (see Step 1 (b)).
   Combine the formula weights revenue/property as 50% of the calculation.
   50% A county's Average per Capita Income as a percentage of the State Average per Capita Income (see Step 1 (c)).
   When the three percentages are totaled, the sum indicates the county's wealth as a percentage of the state's average wealth. If the total is less than 100%, a county is eligible to receive funding.

3. Determine if a county is meeting a minimum effort to generate revenue or fund public schools as compared to a state average effort.

   **Purpose:**
   Minimum effort is established to determine if a county is committing a comparable effort compared to other counties within the State. To receive total funding, a county must either tax their local property at the State average or contribute more local dollars to public schools than the State average local contribution.

   **Criteria:**
   A county is fundable at 100% of the calculated funding if at least one of the following conditions is met:
   a. The county's actual tax rate is adjusted by a formula to take into consideration the year the property was last valued. The revised tax rate is classified as the Effective Tax Rate. If the county's Effective Tax Rate is higher than the state Average Effective Tax Rate, the county is fundable at 100% of the funding as calculated in the formula.
   Counties that had effective tax rates in the prior fiscal year allotment that were above the State average effective tax rate but that had effective rates below the State average in the current fiscal year allotment shall receive reduced funding. This reduction shall be determined by subtracting the amount that the county would have received from the amount that the county would have received if qualified for full funding and multiplying the difference by ten percent. This method of calculating reduced funding shall apply one time only. This method shall not apply in cases in which the effective tax rate fell below the statewide average tax rate as a result of a reduction in the actual property tax rate. If the county documents that it has increased the per student appropriation to the school current expense fund in the current fiscal year, the State Board of Education shall include this additional per pupil appropriation when calculating minimum effort.
b. If the county's appropriation per student is higher than what the county could provide given the county's ability to generate wealth and an average effort to fund public schools, then a county is eligible for 100% funding. To determine what a county could provide, the State average contribution is multiplied by the county's wealth percentage (total percentage in Step 2 above). A county will be funded at a percentage of the calculated funding in the formula if the county is eligible for funding and does not meet the two criteria outlined above. A county's funding will be based on the percentage a county is contributing to public schools as compared to what the county could contribute based on the county’s wealth and an average state effort.

4. Calculation of what a County (LEA) will be funded.

**Purpose:**

Once a county is determined to be Low Wealth, the next step is to calculate the amount of supplemental funds the county will receive.

**Criteria:**

The difference between the county's Appropriation per student and State Average Local Appropriation (including supplemental taxes) per student is multiplied by the county's ADM for a total allotment per formula.

If the county does not meet the minimum effort as described in Step 3, their allotment is prorated based on the effort they are maintaining.

The total for all counties is prorated to the appropriated funds.

**SPECIAL PROVISIONS:**

1. Funds allotted for a Low Wealth Supplement must be expended only for:
   - Instructional positions
   - Substitutes
   - Instructional support positions
   - Teacher assistant positions
   - Clerical positions
   - Overtime pay
   - Instructional equipment
   - Instructional supplies and materials
   - Staff development
   - Fringe benefits
   - Textbooks
   - Supplements for instructional personnel and instructional support personnel as defined in the UNIFORM CHART OF ACCOUNTS.
2. These funds are to supplement, not supplant, local funds. Funds will not be allocated to any LEA found to have used these funds to supplant local per student current expense funds. A county is considered to have used these funds to supplant if the current expense appropriation per student of the county for the current year is less than 95% of the average of the local current expense appropriations per student for the three prior fiscal years.

3. The State Board of Education will consider requests from LEAs to waive the non-supplant requirement as outlined in the legislated low wealth and small county supplemental funding formula only under the following conditions:

   The county can show:
   
   - that it has remedied the deficiency in funding, or that extraordinary circumstances caused the county to supplant local expense funds with funds allocated under this section.

   Examples include:

   - Closing/merging schools within an LEA.
   - Loss of federal Impact Aid funds.
   - Significant change in the demand for county resources due to state/federal unfunded mandates, natural disaster, or other emergency.

4. For FY 2008-09 only, funding was maintained at the FY 07-08 Levels plus Legislative salary increase and the restoration of 40% of the loss for LEAs losing funding from 06-07 to 07-08. (HB 2436, Section 7.10(a))

**SCHOOL BUILDING ADMINISTRATION**

PROGRAM REPORT CODE: 005  
UNIFORM CHART OF ACCOUNTS CODE: XXXX-005-XXX  
STATUTORY REFERENCE: G. S. 115C-284

**TYPE:** Months of Employment (MOE's)  
**TERM:** 10, 11, or 12 months, July 1 - June 30  
**PURPOSE:** Provides funding for salaries including benefits for principals and assistant principals.  
**ELIGIBILITY:** Each LEA is entitled to months of employment. The months of employment allotted are based on the formulas listed below.

**FORMULAS:**
Principal and Assistant Principal allotments have been consolidated to allow more flexibility at the local level. The allotments are calculated separately and then combined into one allotment.

**PRINCIPALS:**
Each school with 100 or more pupils in final ADM and/or seven or more full-time equivalent state allotted/paid teachers and instructional support personnel, unrounded, (based on prior year 6th pay period) is entitled to twelve months of employment for a principal. Year-round schools, multi-track organizational patterns, and other sub-urbanization patterns developed within the existing framework of an established campus are not automatically entitled to additional months of employment. The total months are then multiplied by the LEA’s average monthly salary (based on prior year 6th pay period salary adjusted for legislated increases and benefits).

If a school opens on or after November 1, a principal allotment will be prorated based on the date of the school opening, within available funds. New school openings will be verified based on current year 2nd month ADM and/or FTE data as of current-year 5th pay period. If the schools are not open, or if they do not qualify for a principal, their principal allotment will be reduced. If this ineligible school was allotted 4 additional principal months in the previous fiscal year for school planning, the 4 months will also be reduced from the current year’s allotment.

ADM is based on the final ADM for the prior year as reported on the Principal Monthly Reports (PMR).

FTE information obtained from the 5th and 6th pay periods will be as reported. 202 adjustments will not be considered.

**ASSISTANT PRINCIPALS:**
One month of employment per 80 allotted ADM rounded to the nearest whole month. The total months are then multiplied by the LEA's average monthly salary (based on prior year 6th pay period plus LI) plus benefits.

Fractions of months of employment are rounded up to the nearest month for small city LEAs with ADM less than 3,000 students.
SPECIAL PROVISIONS:

PRINCIPALS:

1. If a school does not meet the conditions specified above, then a teaching position must be used as principal of that school. Teachers employed as principals of schools with less than seven but more than two teachers should be paid for ten months on the appropriate pay level for principals within the "0-10" teacher classification as specified in the North Carolina Public School Personnel State Salary Schedule.

2. In the event the closing or reorganization of schools in an LEA causes a reduction in the principal allotment, the allotment will be held harmless the first and second fiscal years following the reduction of the principal allotment, provided that the reduction in the principal allotment continues in the second year.

3. A teacher may be reassigned to fill in for a principal after the principal has been on sick leave for at least ten (10) days. The reassignment shall be allowed until the principal returns to work or exhausts sick leave.

4. Funds can be transferred for any purpose by submitting an ABC Transfer Form. The salary transferred will be based on the statewide average. Converting certified position allotments to dollars for the purpose of hiring the same type position is not allowable.

5. The State Board of Education must approve waivers for placement of Principals on the salary schedule for Low-Performing schools.

6. Upon the identification of a school as low-performing, the State Board shall proceed under General Statutes 115C-325(q) for the dismissal of the principal assigned to that school.

7. A LEA can submit in writing to the School Allotments Section a request for up to four additional principal months of employment for new schools (which will qualify for a principal allotment). This request needs to include the following information: school opening date, number of months requested, estimated ADM, estimated state allotted/paid teacher and instructional support FTEs, and the effective date that the principal begins the performance of administrative duties for the new school. This policy only applies to additional regular education schools opening within the district. It does not apply to alternative schools or schools that are replacing existing schools within the LEA. The allotment could be prorated based on the date that the request is received. The allotment of additional principal months will depend on the availability of funds.

8. Small Restructured High Schools – Schools restructuring into smaller learning communities with agreements with the New Schools Project, will receive a principal position per new site. This position is to be paid at least a Principal level III.

ASSISTANT PRINCIPALS:

1. These positions must be used only for non-teaching activities.

2. LEAs may employ assistant principals for 10, 11, or 12 months. LEAs cannot exceed allotted months of employment.

3. Assistant principal months may be allotted within funds available to a LEA if the sub-
organizational structure of a school within that LEA creates a distinct separate operating entity within an existing school such as an exceptional children wing of a school with integrated/shared programs. The allotments must be requested and appropriated on an annual basis. The LEA must show a need for funding not already included in the regular ADM assistant principal allotment or exceptional children programs. The identification of separate grade spans within a school does not qualify for additional funding under this provision.

4. Funds can be transferred for any purpose by submitting an approved ABC Transfer Form. The salary transferred will be based on the statewide average. Converting certified position allotments to dollars for the purpose of hiring the same type position is not allowable.

5. Small Restructured High Schools – New schools within an existing school that are a part of the eight pilot site schools restructuring into smaller learning communities with agreements with the New Schools Project, will be reduced for Assistant Principal Months of Employment. ESEA TITLE I - BASIC

PROGRAM REPORT CODE: 050
UNIFORM CHART OF ACCOUNTS CODE: XXXX-050-XXX
CFDA #: 84.010A

TYPE: Dollars
TERM: Up to 27 months
PURPOSE: Provides funding to supplement and provide special help to educationally deprived children from low-income families.

ELIGIBILITY:
Each LEA/charter school is entitled to funding based on the sum of the children (formula children) in the following populations:

1. Number of children in poverty, ages five through seventeen, as identified in the most current census data.
2. Number of neglected children.
3. Number of children in foster homes.

Since there is no census poverty data available for charter schools, the following method for converting the charter school free lunch count to a poverty count has been authorized by the U.S. Department of Education.

1. A ratio is developed which defines the proportion of the total state free lunch count to the state total census poverty count.
2. The above ratio is then applied to the individual charter school free lunch count to establish a census poverty count for that charter school.

A LEA/charter school is eligible for “Basic” funding, if the number of formula children counted for allocation purposes is at least 10 and greater than two percent of the LEA’s/charter school’s total population, ages 5 to 17 years.

In addition to the allocation based on the formula children identified above, a LEA/charter school is entitled to funding based on the number of delinquent children.

Application must be approved prior to the LEA receiving the allotment.

FORMULA:
The U.S. Department of Education determines the allotment of funds to each LEA. Funds for Title I Basic grant-eligible charter schools are distributed as follows:

1. A ratio is developed which defines the proportion of formula children in all eligible charter schools to all formula children in the state.
2. The total state allocation is then reduced by the percentage determined in step 1.
3. The amount of the reduction is distributed to eligible charter schools on the basis of their individual proportion of formula children enrolled.
4. The allocation to each LEA/charter school is then reduced by the reserve for school improvement and state administration.

HOLD HARMLESS:
1. A LEA/charter school shall receive not less than 95% of the amount of funds received last year if the number of formula children is not less than 30% of the total number of children ages 5 to 17.
2. A LEA/charter school shall receive not less than 90% of the amount of funds received last year if the number of formula children is between 15% and 30% of the total number of children ages 5 to 17.
3. A LEA/charter school shall receive not less than 85% of the amount of funds received last year if the number of formula children is below 15% of the total number of children ages 5 to 17.

An LEA/charter school must meet the eligibility requirements in order for the hold harmless provisions to apply.

SPECIAL PROVISIONS:
1. Each grant can be awarded for a period of time beginning July 1st and ending September 30th of the following year. The Tydings Amendment can extend the grant period to 27 months by allowing unexpended funds as of September 30th to carry over for an additional 12 months. Funds are potentially available to LEAs/charter schools for 27 months, provided a timely budget is submitted each year. (Carryover funds are subject to applicable carryover percentage limitations.)
2. Program Administrators will notify the School Allotments Section of any LEA / charter school that does not have an approved budget by October 31st. After this notification, funds carried forward will be reduced from the LEA’s / charter school’s budget.
3. If a LEA/charter school receives an allocation greater than $50,000 (total of Title 1 Basic, Concentration, Education Finance Incentive and Targeted funds), the amount of funds available for carryover into the following year (after September 30th) is limited to 15% of the current year's allocation. Funds in excess of percentage limitations will revert and be reallocated to eligible LEAs/charter schools unless a waiver is received and approved.

A waiver may be granted once every three years if it is determined that the request is reasonable and necessary or if supplemental appropriations become available.

If the allowable administrative expenditures for the current fiscal year are less than the 10% administration cap, the difference can be carried over, on June 30, to the following fiscal year. Any administration carryover will be added to the administration cap in the following fiscal year.
6. A LEA/charter school may request in writing to the Section Chief of Compensatory Education, that a waiver of the administrative and support percentage be granted. A waiver may be granted if it is determined that the request is reasonable and necessary due to extraordinary circumstances or fluctuations in funding.

Five North Carolina Department of Public Instruction Directives
1. IDEA Performance Goals and Indicators
2. No Child Left Behind
3. Raising Achievement and Closing Gaps
4. North Carolina Improvement Plan
5. State Improvement Grant

ELIGIBILITY: All LEAs, charter schools and state operated programs are eligible.

Application must be approved prior to the LEA receiving the allotment.

FORMULA:
The amount of funding is determined by the LEA’s/charter school’s/state operated program’s December 1, IDEA VI-B headcount. A funding factor is developed by dividing the total funds available by the total head count. The per-child factor is then multiplied by each LEA’s/charter school’s/state operated program’s head count. The individual distribution is then adjusted to equal a minimum allocation of $1,000.

The allocation is based on $1.00 per identified child with a disability with $1,000 minimum for LEAs with three or more schools with a maximum not to exceed $10,000. LEAs with one or two schools have a $500 minimum allocation. Funding will be based on the December 1 child count for LEAs being monitored.

SPECIAL PROVISIONS:
1. Each project is awarded funds for a period of time beginning July 1st and ending September 30th of the following fiscal year. The Tydings Amendment extends the grant period for an additional 12 months; therefore, each grant covers a period of 27 months. Funds will be
available to LEAs/charter schools/state operated programs for 27 months provided a project is submitted each year.

2. Program Administrators will notify the School Allotments Section of any LEA/charter school that does not have an approved budget by October 31st. After this notification, funds carried forward will be reduced from the LEA’s/charter school’s budget.

3. Any unallotted funds created from previous years will be used to cover allowable expenditures for current year projects until the previous year’s funds have been used.

IDEA VI-B (2004) – EARLY INTERVENING SERVICES (EIS)

PROGRAM REPORT CODE:  070
UNIFORM CHART OF ACCOUNTS:  XXXX-070-XXX
CFDA #:  84.027A
TYPE:  Dollars
TERM:  Up to 27 months

PURPOSE:
EIS is used to develop and implement coordinated, early intervening services, which may include interagency financing structures, for students in kindergarten through grade 12 (with a particular emphasis on students in kindergarten through grade 3) who have not been identified as needing special education or related services but who need additional academic and behavioral support to succeed in a general education environment. IDEA federal regulations mandates 15% of IDEA 611 funds are set-aside for any local education agency with significant disproportionality based on race and ethnicity with respect of identification of children with disabilities including particular impairment; the placement in particular educational settings of children; and the incidence, duration and types of disciplinary actions, including suspension and expulsions. These funds cannot be used for the special education and/or related services for children with disabilities. These funds are for students in kindergarten through grade twelve at risk of placement in special education. This new legislation also requires states to monitor the expenditure of EIS funds. Services provided for non-disabled students for EIS should be purchased through the newly established Program Report Code 070 (PRC 070).

ELIGIBILITY:
All local education agencies (LEAs) mandated to use 15% of their PRC 60 funds and LEAs electing to use up to 15% of their PRC 60 permissively for EIS are eligible

FORMULAS:
The formula for mandated EIS is 15% of the LEAs current year initial PRC 060 allotment is transferred to PRC 070. The formula for permissive EIS is up to 15% of the LEAs current year initial PRC 060 funds is transferred to PRC 070.

SPECIAL PROVISIONS:
1. Funds can be transferred between PRC 070 and PRC 060. Funds may only be expended according to the approved budget.
2. Expenditures for Early Intervening Services should be from PRC 070.
3. Early Intervening Service expenditures must be based on scientifically research based programs selected by the LEA for students in general education at risk of placement in special education. The 15% provided for these programs is federally mandated for any LEA with significant disproportionality by disability, or race-ethnicity, but this does not prohibit other LEAs from using up to 15% of their initial IDEA 611 funds for Early Intervening Services.
4. Funds are specific and all unused funds not encumbered by June 30th are carried over to next...
year. The 15% for Early Intervening Services is taken from the initial PRC 060 allocation, thus reducing the initial allocation annually. The 15% for Early Intervening Services cannot be based on carry-over funds from prior year initial allotments. Each project can be awarded funds for a period of time beginning July 1st and ending September 30th of each year. The Tydings Amendment can extend the grant period to 27 months by allowing unexpended funds as of September 30th to carry over for an additional 12 months. Funds are potentially available to LEAs for 27 months, provided a timely project application is submitted each year. The 15% of IDEA 611 funds for Early Intervening Services follow the same liquidation period. Federal regulations require 15% be set-aside annually for all mandated EIS.

5. Expenditures under this PRC will be used to determine the percentage of funds expended on students in general education to prevent placement in special education.

6. Exceptional Children Division will, after review of necessary data, assign technical assistance to LEAs not following state and federal guidelines regarding the use of these federal funds.
