

# IHE Master's Performance Report

High Point University

2006 - 2007

---

## Overview of Master's Program

The School of Education at HPU currently has three graduate degree programs. The Master of Education (M.Ed.) in Educational Leadership is designed to prepare experienced K-12 teachers to serve as educational leaders. Currently, the program requires 36 semester hours including six hours of internship. Following completion of the required program of study, candidates must make a satisfactory score on the School Leaders Licensure Assessment in order to be licensed by DPI. The curriculum in the Educational Leadership program provides 15 semester hours of core courses including Advanced Educational Psychology, Trends and Issues in Education, Curriculum Development, Methods of Educational Research and Working With Diverse Learners. Within the 21 hours of Specialty Area coursework, candidates receive preparation in the principles of school administration and leadership, school law and ethics, school budget and finance, supervision of instruction, and internship opportunities. In December 2006, an on-site program approval visit was conducted to lift temporary authorization of the M.Ed. program in Educational Leadership. Currently, the SEC will recommend full approval for the degree and add-on licensure program in Educational Administration to the SBE. Two additional graduate degree programs currently have temporary authorization. The Master of Education (M.Ed.) in Elementary Education builds on the most current knowledge of best practice relevant in teaching grades K-6. The program emphasizes a 21st Century model of teaching and learning in its 36 semester hours which includes core, instructional courses, and a six semester hour capstone experience. The 15 semester hours of Instructional Courses include advanced study of reading methodologies, integration of instruction, social studies, mathematics, and science. The capstone coursework provides candidates with the option of a thesis or a product of learning which can include National Board Certification. A comprehensive examination which covers the twelve broad themes of the elementary graduate degree program is required. Lastly, the Master of Education (M.Ed.) in Special Education with a concentration in Mental Disabilities is also a 36 hour degree program which includes core, specialty area coursework, and options for an internship, thesis or product of learning. Specialty area coursework includes advanced study in assistive technology, curriculum development for students with mental disabilities, occupational and transition programs for secondary students with mental disabilities legal and ethical issues and the multisensory teaching of reading to students with disabilities. The M.Ed. program in Special Education also requires a comprehensive examination. Two of the graduate degree programs (M.Ed. in Educational Leadership) and the M.Ed. in Special Education) allow an individual to also add the license in Program Director for Exceptional Child Services by choosing three additional courses (9 semester hours) from the other program of study.

## **Special Features of Master's Program**

The School of Education currently delivers the M.Ed. program in Elementary Education, Educational Leadership, and Special Education: Mental Disabilities. Each of these three graduate programs is 36 hours of semester in length and has options for candidates to complete an internship, thesis or product of learning during the last six hours of study. The School of Education also now offers the 21 hour add-on license in Educational Administration which requires five specialty courses and two consecutive semesters of internship. Candidates who complete the program of study in Educational Leadership or the add-on license in Educational Administration may continue to register for continuing renewal credit opportunities sponsored by the SOE at no charge. The M.Ed. program in Educational Leadership also provides a unique mentoring opportunity for interested graduates to serve as adjunct faculty in the SOE. Additionally, candidates who complete the program of study in Educational Leadership can also choose to add the license in Program Director for Exceptional Children Services by adding three courses from the current course offerings in the Special Education: Mental Disabilities program of study. The Elementary Education M.Ed. program provides candidates with the option of completing their requirements for National Board Certification and they may earn up to six hours of graduate credit for the process of assembling the portfolio and being awarded the National Board Certificate.

## II. CHARACTERISTICS OF STUDENTS

### A. Headcount of students formally admitted to and enrolled in programs leading to licensure.
