

IHE Master's Performance Report

NC A&T State University

2007 - 2008

Overview of Master's Program

The School of Education administers sixteen (16) Masters degree programs located in the College of Arts and Sciences, Schools of Agriculture, Education and Technology. All Masters licensure programs were revised nine years ago and subsequently approved by SDPI. The content of all Masters programs was revised to focus on instructional expertise, knowledge of the learner, research, connecting subject matter and learners, and professional development and leadership. All candidates admitted to the program are required to have licensure in their teaching area. Additionally, all masters programs were designed to attract practicing teachers who have demonstrated “best practices” while working in schools. As an exit requirement, all master’s degree candidates must produce a NBPTS portfolio or an NBPTS-like portfolio. If their area does not have NBPTS, they must conduct a major action research project in a school and/or produce a product that is specific to their teaching area. Further, all master’s degree candidates must pass at least one comprehensive examination. All courses are aligned with the North Carolina State Department of Public Instruction guidelines for advanced programs, NCATE and National Board standards as well as the SPAS for the respective content areas. Each candidate is required to participate in an internship.

Special Features of Master's Program

The Master of Arts in Teaching (MAT) has been instituted in some content areas at NC A&T State University. This two phase program allows students who hold a Bachelor of Science degree in a content area, but do not have a teaching license, to complete the necessary course work to be recommended for initial licensure during the first phase. During the second phase, candidates complete the advanced courses to complete the Master of Arts in Teaching.
