

IHE Master's Performance Report

UNC-Pembroke

2007 - 2008

Overview of Master's Program

The goal of graduate education programs at UNCP is to provide quality masters level degree programs, opportunities for advanced study, and continuing professional and career development for students. All graduate programs emphasize depth of study, academic rigor, and reflection. UNCP graduate programs seek to foster a desire for excellence, a sustained commitment to learning, an openness to change, a social consciousness, and a respect for human diversity. The programs also seek to promote the development of leaders in the various fields of study. Each graduate program is firmly grounded in theoretical and empirical bodies of knowledge. Students are challenged to think critically and creatively, and to apply theory to practice in an atmosphere of inquiry and dynamic exchange with faculty and each other. Graduate education faculty share the University's commitment to academic excellence in a balanced program of teaching, research, and service. In addition to campus-based courses, during 2007-2008, graduate programs were delivered at the following off-campus sites: Fayetteville Technical Community College, Lee Community College, Richmond Community College, and Sandhills Community College. The following graduate licensure programs are available for experienced teachers: Art Education, English Education, Elementary Education, Mathematics Education, Middle Grades Education, Music Education, Physical Education, Reading Education, Science Education, and Social Studies Education. Graduate programs in School Administration and School Counseling also are available. UNC Pembroke offers a Master of Arts in Teaching (M.A.T) degree program with licensure concentrations in Art, English, Mathematics, Middle Grades, Music, Physical Education, Science, and Social Studies. A MAT program concentration in Teaching English to Speakers of Other Languages (TESOL) progressed through the campus approval process during the 2006-2007 academic year, with implementation planned for fall 2009. An add-on licensure program in School Administration, offered for the first time during the 2006-2007 academic year. In June 2007, the first cohort of add-on program completers was recommended for licensure.

Special Features of Master's Program

Graduate programs in education at UNCP offer challenging courses and rich experiences to individuals who seek to continue their professional growth. Almost all graduate students are part-time, taking one or two courses per semester. Enrollment varies from program to program. Flexible course schedules and course formats are designed to accommodate the needs of working adults. During the summer, multiple schedule options are available to make courses readily accessible to students. Throughout the year, courses are offered in varied formats, including online, hybrid, and face-to-face. All of the programs are keyed to authentic assessment,

culminating in various products of learning that provide evidence that candidates meet state and national standards and are well prepared to assume leadership roles in schools.
