

# IHE Master's Performance Report

Campbell University

2009 - 2010

---

## Overview of Master's Program

Campbell University is fully accredited by the Southern Association of Colleges and Schools. In addition, Professional Education programs leading to licensure for teaching, AIG, school counseling, and school administration are fully accredited and approved by the State Board of Education and the National Council for the Accreditation of Teacher Education. At the masters' degree level, programs provide additional depth and specialization by assisting practicing professionals to relate theory and research to current professional practices, trends, and issues. Core courses, individualized projects, assignments, and field experiences allow graduate students to renew and refine existing skills and competencies while developing new ones. The ability to integrate information and knowledge from varied experiences and courses, and to apply the results in professional settings is emphasized. Degrees offered include the Master of Education, Master of Arts, and Master of School Administration. Concentration areas available include elementary education, middle grades education (math, language arts, social studies), secondary education (English, history, mathematics), exercise science, school counselor, and school administration (principal).

## Special Features of Master's Program

Masters' programs at Campbell University do have some special features designed to meet the unique needs of the population served. In the teaching areas, a special option exists for the candidate who already holds a bachelor's degree and wishes to satisfy initial licensure requirements while pursuing a masters' degree. Coursework is structured to allow graduate credit for courses that document teaching competencies. This program includes three stages: general education and methods courses, the internship semester, and the remaining courses to complete the graduate major. Internship requirements are structured to recognize experience the candidate brings with them. While the requirement for candidates with no successful teaching experience is 14-weeks, the candidate who is lateral entry employed completes a 10-week experience, and the candidate with one year of successful teaching experience completes a 5-week experience. Initial licensure is granted after stage 2, and upgraded to M-level licensure upon completion of stage 3. All graduate courses are scheduled in late afternoon and evening, thereby allowing candidates to complete all coursework except internships after the regular working day. Students are now able to complete the courses for AIG licensure as part of the Masters program.
