

# IHE Master's Performance Report

Lenoir-Rhyne College

2009 - 2010

---

## Overview of Master's Program

At this time, L-R has two programs active and running at the masters level. Master of Arts degrees are offered in one teaching area (Birth-Kindergarten) and in one school support area (School Counseling). These programs are designed for individuals who wish to pursue graduate studies in order to gain experience, develop leadership skills and enhance professional competence. The advanced B-K program includes a core of twelve credits designed to build leadership and research skills, equipping the teacher to function in an ever-changing, increasingly diverse society. A second set of twelve credits is required that expands and deepens the graduate candidate's knowledge and skills in the content area through applied research, assessment, and understanding of the learner. A third set of twelve credits is required that target leadership within the context of the specialized area of study with application evidenced through opportunities for intense internship. The Masters of Arts degree in School Counseling, which continues to be one of the fastest growing graduate programs, prepares individuals for positions as professional counselors in public school settings. The school counseling program (available through a masters level program or as a licensure only option for those entering with a related graduate degree), places primary emphasis on the development of strong clinical skills and the use of data-driven strategies in the development of a comprehensive school counseling plan . Prospective school counselors who satisfactorily complete the School Counseling program requirements and receive a passing score on the PRAXIS specialty examination are eligible for licensure as a school counselor in North Carolina. Lenoir-Rhyne University is in the process of developing additional masters-level programming. Driven by discussion with school superintendents, and answering the issues and needs that they have for advanced and post-baccalaureate preparation, L-R will add masters programs during the academic year 2010-2011. Blueprints are already submitted to NC-DPI for consideration of revisions to the B-K program as well as graduate options for English as a Second Language and Deaf and Hard of Hearing Education programs. Additionally, discussions with regional superintendents have pointed out several needs that may result in a proposal for a school leadership program during 2010-2011.

## Special Features of Master's Program

The mission of both the teacher and counselor education programs at Lenoir-Rhyne University for both initial and advanced programs is to prepare professionals who know their content, know how to teach/counsel, are successful with diverse populations, are leaders, are reflective about their practice, and are respectful and caring. The School of Counseling prepares students as either agency counselors, school counselors, or as blended agency-school counselors. Any counseling student who completes a program as a School counselor must demonstrate a strong

theoretical foundation, a mastery of clinical skills, and the ability to practice as reflective counselors interacting with diverse populations in a variety of settings within the public schools. The L-R University mission of wholeness of mind, body and spirit set the tone for the personal, nurturing contact provided to candidates, a hallmark of the teacher and counselor education programs at L-R. These programs prepare reflective practitioners who are caring professionals who enter school environments knowing children and adolescents, and who address children's needs in order to support learning. During 2009-2010, opportunities were provided for graduate students and career school counselors to enhance their professional preparation by making presentations at a celebration of student research held here on campus in April. Additionally, affiliation with professional organizations was an area of emphasis for both the B-K and School Counseling programs. Counseling graduate candidates, faculty, and alumni remain active participants in the professional counseling associations, both at state levels and with the American Counseling Association. Our B-K faculty member worked to strengthen the field through a regional B-K Consortium, and assisted in teaching and modeling for B-K undergraduate students. Graduate B-K faculty continued participation in the task force called "The Power of K" which hosts an advocacy group of career Kindergarten teachers to support the expectations of developmentally appropriate practice and increase the availability of mentoring and professional development for less experienced teachers. In work with the area public schools in 2009-2010, each school counseling intern provided 300 hours of service to their school during the internship as well as an additional 40 hours of service during early counseling practicum work. Birth-Kindergarten candidates for advanced licensure continued their work in many types of public settings including programs in community colleges, More-At-Four programs, Pre-K, HeadStart sites and kindergartens in K-5 schools. Also during 2009-2010, an emphasis was added to the Counselor Education program highlighting diversity. Along with the regular courses offered on the topic, an additional course was initiated, co-taught by a counselor education faculty member and a special education faculty member.

## II. CHARACTERISTICS OF STUDENTS

### A. Headcount of students formally admitted to and enrolled in programs leading to licensure.

Full Time				
	Male		Female	
Graduate	American Indian/Alaskan Native		American Indian/Alaskan Native	
	Asian/Pacific Islander		Asian/Pacific Islander	
	Black, Not Hispanic Origin		Black, Not Hispanic Origin	
	Hispanic		Hispanic	
	White, Not Hispanic Origin	3	White, Not Hispanic Origin	8
	Other		Other	
	<b>Total</b>	<b>3</b>	<b>Total</b>	<b>8</b>
