

# IHE Master's Performance Report

UNC-Chapel Hill

2009 - 2010

---

## Overview of Master's Program

In addition to the MSA for school administrators, we offer master's programs to prepare PreK-12 teachers, school counselors, and school psychologists, and a master's program specifically designed for experienced teachers. In all, 298 students were enrolled in these master's programs this year. Our MSA PROGRAM, described elsewhere, enrolls approximately 80 students each year both on-campus and off-campus. Our MASTER OF ARTS IN TEACHING PROGRAM to prepare secondary teachers draws generally draws 50 to 60 students each year, with about one-third of its enrollment from UNC-Chapel Hill. With the addition of two new courses designed to meet advanced competencies, this 12-month, full-time MAT program has approval from the State Department of Public Instruction for our graduates to receive the 10% salary increment for master's students. Our M.ED. IN SCHOOL COUNSELING is a 15-month, full-time program that prepares students to practice in elementary, middle, and high schools. This program accepts 15-20 new students each year, and is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). In September 2006, our School Counseling Program was named the 2006 Outstanding Counselor Education Program by the Southern Association for Counselor Education and Supervision (SACES). Our M.Ed. PROGRAM IN SCHOOL PSYCHOLOGY is a 3-year, full-time program consisting of two years of course work and one year of internship. As all of our licensure programs, it is accredited by the National Council for Accreditation of Teacher Education (NCATE) as well as the National Association of School Psychologists (NASP). The School Psychology master's program accepts approximately 14-18 new students each year and prepares its graduates to work in schools and related educational agencies. Graduates are eligible for psychological and educational licensing in NC. Our M.ED. PROGRAM FOR EXPERIENCED TEACHERS (M.Ed.X) is a 31-33hour, part-time, field-based program which has been specifically designed to meet the needs of practicing teachers. Students participate in this program in cohorts of about 15 to 20 students each, with teachers who work together often studying together. As of Summer '10, a total of 193 practicing teachers were enrolled in our M.Ed.X cohorts. Students complete their 31-33 hours of course work over three summers and two academic years. Graduates of the M.Ed. Program for Experienced Teachers are eligible for a 10% increase in base salary. (NOTE: We also offer one master's program that does not lead to licensure: a Master of Arts in Education. These students are not counted for the purposes of this report).

## Special Features of Master's Program

A distinctive feature fundamental to our master's programming is the offering of OFF-CAMPUS, PART-TIME MASTER'S PROGRAMS SPECIFICALLY DESIGNED TO

ACCOMMODATE PRACTICING EDUCATORS who choose to continue working while pursuing a graduate degree. These programs combine online instruction with some face-to-face instruction at locations convenient to the students' regular work places. (The off-campus MSA program is described in the MSA section of this report). Our off-campus M.Ed. program, offered to experienced teachers, is cohort-based with an average of 50% of the course instruction conducted over the Internet. The face-to-face instruction is offered after school and in the summers at times when practicing teachers can participate. Teachers participate in the program in cohorts of about 15 to 20 students each, ideally with teachers who work in the same school district studying together in the same cohort. Our faculty and area superintendents work together to identify areas of interest among teachers. The growth of this program is an indication of the high level of interest among teachers in pursuing graduate education: The program was launched with three cohorts in 2001; two more cohorts were added in 2002; four more were added during 2003 and one more in January of 2004. We admitted two new cohorts during the summer of 2006: a K-12 Literacy Cohort with 30 teachers and a K-8 Science Cohort with 12 teachers. We admitted three new cohorts in Summer 2007: a 6-12 Social Studies Cohort, a K-12 Technology Cohort and a K-12 Mathematics cohort, for a total of 55 teachers. A K-12 Literacy cohort and K-8 Science cohort also began in Summer '07. Again, teachers were from several of the surrounding communities. Cohorts beginning Summer 2008 were K-12 Literacy, K-8 Science and the newly approved Special Education General Curriculum. Finally, of the Summer of 2010, we have 193 MEdX students currently enrolled in cohorts: The three continuing from Summer 2009 are Literacy K-12, Math K-8 and Math K-12; the three new cohorts beginning Summer 2010 are Literacy K-12, Science K-8, and Special Education K-12. Between August '09 and May '10, we had 57 experienced teachers who graduated from our Literacy K-12, Science K-8, and Special Education K-12. Praise for the impact of the program on teachers' disposition and practice related to teaching continue to be strong. Completion of the final Synthesis and Evaluation Statements (a Portfolio-like documentation and assessment program) provides documentation to support the impact of the program. This documentation demonstrates graduate understanding in terms of extending knowledge of content, teaching, and assessment, more extensive use of reflective planning, demonstration of leadership, and dispositions that support all students learning and the value of teacher research about their practice.

## II. CHARACTERISTICS OF STUDENTS

### A. Headcount of students formally admitted to and enrolled in programs leading to licensure.

Full Time				
	Male		Female	
Graduate	American Indian/Alaskan Native	1	American Indian/Alaskan Native	1

Comment or Explanation						

**G. Satisfaction of program completers/employers with the program in general and with specific aspects of the program, as rated on a 1 (lowest) to 4 (highest) scale.**

Due to several factors affecting survey responses, survey results will not be reported at the institutional level this year.
