

IHE Master's Performance Report

Chowan University

2010 - 2011

Overview of Master's Program

Chowan University offered its first graduate degree in the fall of 2010, a Master of Art (MA Ed) in Elementary Education. The graduate program at Chowan is built upon the strengths of the undergraduate program and is designed to provide the practicing licensed classroom teacher with advanced work in content along with a further development of professional knowledge and dispositions. All of the graduate students enroll as a cohort and take classes during the evening hours. This program is designed for working professionals and is 30 semester hours. All classes meet two times each week for three hours each. The classes have a specific rotation which facilitates program planning and registration. Candidates can complete their program in five semesters which includes one summer session.

Special Features of Master's Program

The Chowan University School of Education spent a great deal of time surveying our partner schools and school districts to determine the need for and interest in a graduate program for teachers. Elementary Education was the area in which the most interest was expressed. Survey respondents also wanted to complete the program in a reasonable period of time. Our program is designed on the cohort model with students progressing through the program as a group. This builds a collaborative group with a sense of community and pride. We hope to add additional graduate programs in the other program areas in which we have undergraduate teacher education.
