## Overview of Master's Program

North Carolina Agricultural & Technical State University offers 15 master's degree programs leading to advanced licensure through the College of Arts and Sciences, the School of Agriculture and Environmental Sciences, the School of Business and Economics, the School of Education and the School of Technology. The programs focus on instructional expertise, knowledge of the learner, research, connecting subject matter and learners, and professional development and leadership. The curricula for master's degree programs are aligned with the North Carolina State Department of Public Instruction guidelines for advanced programs, NCATE, NBPTS, as well as the standards of specialized professional associations (SPAs) for the respective content areas. In addition to completing the required coursework, master's degree candidates pass a comprehensive examination and participate in an internship. As an exit requirement, master's degree candidates in teacher education produce a portfolio modeled after the National Board for Professional Teaching Standards (NBPTS) portfolio. Other school personnel licensure areas require candidates to conduct a major action research project in a school and/or produce a product specific to their licensure area. The Master of Arts in Teaching (MAT) is offered in nine (9) content areas at NCA&T. The Master of Arts in Education (MAED) degree is offered in elementary education and reading. Master of Science (MS) degrees are offered in school counseling, school social work, and instructional technology.

## Special Features of Master's Program

The Master of Arts in Teaching (MAT) is a two-phase program designed for completion of initial licensure and advanced licensure. Candidates who have a baccalaureate degree in a content area, but do not have a teaching license, complete the necessary course work to be recommended for initial licensure during the Phase I. Candidates complete requirements for advanced licensure as well as the MAT degree in Phase II.
