

IHE Master's Performance Report

Wingate University

2010 - 2011

Overview of Master's Program

Since its founding in 1896, Wingate University has played a significant role in preparing individuals for the education profession. In June of 1985, Wingate University expanded its educational vision to include graduate degrees in Elementary Education. The Master of Arts in Education (MAEd.) degree allows individuals who already hold elementary school licensure to pursue advanced studies in their current field. In 1996, responding to the growing demand for teachers and the need for effective alternative licensure programs, Wingate University complemented its traditional programs with the addition of the Master of Arts in Teaching (MAT). The MAT program allows individuals who hold baccalaureate degrees in fields other than education to prepare for a teaching career with elementary school licensure. Both the MAEd. and the MAT are practitioner degrees, and the goal of both is to prepare teachers to provide quality instruction in K-6 classrooms. The graduate professional education programs at Wingate University are guided by a conceptual framework consistent with the university's mission of Faith, Knowledge, and Service and are conceived in the context of a well-rounded liberal arts education. Professional knowledge and applied teaching components enable students to make creative and informed decisions to meet diverse classroom challenges and become effective facilitators of learning. The MAEd. program consists of 30 semester hours in core and content-related experiences, focusing also on assessment and evaluation. Each course includes integral field experiences involving the planning, implementation, and evaluation of instruction. The MAEd program successfully underwent revisioning during the 2010 - 2011 academic year. New courses emphasize problem-solving techniques and inquiry methods with intense interest in the most current research trends and methods as well as implementation of most recent technology. The MAT program consists of 39-42 semester hours leading to the Master of Arts in Teaching degree, with licensure in Elementary Education (K-6). Prior to acceptance in the degree program, candidates undergo evaluation of recent experiences and transcript analysis to ensure that the student has met the liberal arts component consistent with Wingate University's conceptual framework. Students are notified of prerequisite coursework necessary for formal admission. Progression in the program is limited until prerequisites are met. Requirements for the MAT degree include the same core, content, and evaluation/assessment components of the MAEd., plus six additional hours of coursework in content areas, and the completion of a 3-6 semester hour internship, which is individually designed to match the needs and experience of the candidate. Before licensure can occur, students must meet minimum score requirements on the required PRAXIS tests.

Special Features of Master's Program

Several features distinguish Wingate University's Graduate Education programs. Our programs emphasize the role of reflection in learning and professional growth. A uniform model for reflection has been adopted and reflective components are essential in each course. Reflection is also crucial in the development of the program portfolio. A second distinguishing feature of our programs is the emphasis on practical application to particular instructional settings. Applied course components require collaboration with area teachers in observing, planning, and conducting instructional and professional growth activities. Each MAT candidate completes a

supervised practicum in a K-6 school setting which is tailored to meet the particular needs and experience of the candidate. For example, candidates already serving as lateral entry teachers may complete a short, principal-supervised internship, while candidates with no classroom experience complete a longer, more closely supervised practicum. Close relationships with local K-6 schools allow for flexibility in practicum assignments, such as the placement of MAT practicum candidates in year-round and summer programs and in high priority schools who often hire them upon licensure. The programs offer flexibility in admissions and program progression. Unlike cohort programs, admission to Wingate's programs is on a rolling basis, and courses are designed so that they do not have to be taken in a particular sequence. An established course rotation ensures that each required course is offered at least once over a two-year span, so that candidates may complete the program in as few as two years to as many as six years. As resources and personnel allow, courses are offered more frequently, particularly as candidates express demand for a particular offering. Additionally, students may substitute comparable coursework from other institutions for up to six hours of program credit. Wingate University refers students to published course listings from area institutions as this material becomes available to Wingate University staff members. The program is responsive to the needs of candidates, particularly as they meet the demands of the K-6 classroom with increased emphasis on teaching literacy skills and accountability. In response to candidates' and employers' demands for greater preparation in literacy instruction and assessment, the general assessment course once required was replaced by adding a new course on Reading Foundations, Assessment, and Diagnosis and by placing greater emphasis on specific assessment strategies in various content courses. In response to needs for flexibility in completion of requirements, candidates may now register for additional semesters to complete portfolio requirements. An optional special topics course has been approved to allow candidates to further research or engage in professional development projects.

II. CHARACTERISTICS OF STUDENTS

A. Headcount of students formally admitted to and enrolled in programs leading to licensure.

Full Time				
	Male		Female	
Graduate	American Indian/Alaskan Native		American Indian/Alaskan Native	
	Asian/Pacific Islander		Asian/Pacific Islander	
	Black, Not Hispanic Origin		Black, Not Hispanic Origin	
	Hispanic		Hispanic	
	White, Not Hispanic Origin		White, Not Hispanic Origin	
	Other		Other	
	Total		Total	
Licensure-Only	American Indian/Alaskan Native		American Indian/Alaskan Native
