

IHE Bachelor Performance Report

Johnson C. Smith University

2010 - 2011

Overview of the Institution

Johnson C. Smith University (JCSU), one of the nation's oldest and strongest historically Black colleges, is a private liberal arts university of more than 1,400 students with a solid reputation for seeking and creating new ways to educate and prepare students as future leaders. JCSU, one of six U.S. colleges selected as a 1996 recipient of the John D. and Catherine T. MacArthur Foundation "genius" grants, was recognized for its innovations in the teaching and learning environment. In addition to these accomplishments, the University has partnerships with several international universities. There is no doubt that it strongly emphasizes teaching with a student/faculty ratio of 17 to 1. The University offers a four-year Liberal Studies program and the Honors College, which serve as general education programs for regular and honors students respectively, and 36 major programs of study through the College of Arts and Letters, College of Science, College of Technology, Engineering, and Mathematics, and the College of Professional Studies. A number of specialized programs, including pre-law, pre-medicine, and pre-engineering, are offered as concentrations from within the three colleges. The IBM Laptop Initiative begun during 2000-2001 academic year to provide all full-time students with a laptop computer has seemingly awakened in students and faculty the desire to use technology in delivering and receiving instruction. As a result, faculty members have infused a variety of teaching/learning strategies and processes into their classes so that students cannot only access and manipulate a wide variety of information, but create new information.

Special Characteristics

The theme "Teachers as Professional Decision Makers in Multifaceted Roles" (roles: master of content, curriculum/instructional designer and instructor, diagnostician, manager, model, teacher leader) guides the conceptual framework of the Department of Education. The Program provides teacher candidates with content knowledge of curriculum design, the teaching profession, decision-making, and appropriate dispositions to apply reflectively and flexibly in any teaching context. Teacher Education Program courses include all special characteristics above as well as Learning Across the Curriculum (reading, writing, listening, speaking, and critical thinking) curriculum components. Several courses are structured around a service-learning element. The Teacher Education Program has received grants to infuse the strands of diversity education and technology skills into all aspects of the curriculum (Lilly Endowment) and to increase the diversity of the program's student population (Phillip Morris). Additionally, a semester of courses in the Elementary Education program uses strategies of a "learning community," another instructional approach to promote the reciprocity of the learning environment. The Department of Education has had several grants over the last four years to establish and support a professional development school.

Program Areas and Levels Offered

JCSU offers the following programs: (1) Elementary Education K-6, (2) Mathematics Education 9-12, (3) English Education 9-12, (4) Social Studies Education 9-12, (5) Physical Education K-12, and (6) Health Education K-12.

I. SCHOOL/COLLEGE/DEPARTMENT OF EDUCATION (SCDE) INITIATIVES

A. Direct and Ongoing Involvement with/and Service to the Public Schools

LEAs/Schools with whom the Institution Has Formal Collaborative Plans	Priorities Identified in Collaboration with LEAs/Schools	Activities and/or Programs Implemented to Address the Priorities	Start and End Dates	Number of Participants	Summary of the Outcome of the Activities and/or Programs
JCSU faculty has been collaborating with Irwin Avenue Elementary School and Bruns Avenue Elementary School.	The Teacher Education faculty at JCSU worked with students from Irwin Elementary School and Bruns Elementary School in the areas of literacy and science in concert with Freedom Schools Partners, the local sponsor of the Children's Defense Fund Freedom Schools. During 2010-2011, the Teacher Education faculty was instrumental in investigating new science experiments, preparing, and exploring	These integrated science activities that developed included the following: How can you make your water cleaner? This packet gives a lesson in worldwide water pollution problems; M&M Challenge based on the book, "Strega Nona's Magic Lesson." Additional integrated science packets were also implemented. These packets were very intentional and thorough with a variety of activities to	The initiative began Spring, 2010 and is still on-going. During the summer, 2010 these hands on activities were offered in the afternoons once a week for the scholars (students). These activities were also used for the after school program for students during 2010-2011 academic year.	Both Irwin Avenue and Bruns Avenue Elementary Schools used these integrated science activities. During the summer, 600 scholars K-8 were involved in the Freedom School Program; however, the K-5 students were the students who were actively engaged in these enriching activities.	Irwin Avenue and Bruns Avenue scholars in conjunction with Freedom School Partners will continue to use the science packets/projects that the Teacher Education faculty at JCSU created. They are very beneficial in engaging the scholars and creating a love of science in a fun, hands-on way which complements the literacy-based CDF Freedom School curriculum.

	<p>integrated science packets for these schools. These activities help engage the scholars (students) in exploring STEM through exciting projects that excite them about science, technology, engineering, and mathematics in ways that their classrooms cannot always accomplish due to classroom size and time constraints.</p>	<p>engage the imagination of all grade levels.</p>

B. Brief Summary of faculty service to the public schools.

During the 2010-2011 academic year, the Department of Education faculty members have been involved in many public school activities. Some activities continued from last year while new initiatives were developed. Continued from last year, teacher education faculty served (1) in Science Olympiad-Activities (2) on the NC State Board of Directors for the Science Olympiad Program, (3) tutored children in several elementary schools, and (4) provided support for first year teachers. Arts and Sciences faculty from each specialty area continued many of the activities in the public schools from the previous year. The faculty: (1) Co presented at a national conference with classroom teachers (2) planned and implemented several service learning projects in local elementary schools. New, direct and on-going initiatives included: (1) provided professional development workshops for teachers at Merry Oaks, (2) participated in family literacy night activities, (3) participated in math night activities, (4), provided a celebration activity for Even Start parents, (5) co-teaching in the elementary classroom and (6) held a book drive for children who do not have book at home to read.

C. Brief description of unit/institutional programs designed to support beginning teachers.

The University continues to provide release time for the Beginning Teacher Program coordinator. The release time was used to visit first year teachers in their classrooms, assess their needs, and provide them assistance. The student teacher supervisor is the initial contact person for beginning teachers since they have developed a relationship during student teaching. As in the past years, first year teachers continued to call unit faculty who served as resource persons

for advice on solving professional problems such as classroom management, record keeping, lesson plan development, and to discuss concerns about evaluations. Services were offered via email, telephone, fax, and occasional face-to-face visits. A continued effort of the University in support of the Teacher Education program was to subsidize payment of the Praxis II examination for first year teachers trained at JCSU. In previous years Praxis exam costs were charged directly to the student's account. This practice created financial hardship for students and hindered them from taking the test in a timely manner. The University's resources in the Curriculum Material Center in the JCSU Library, in the Department of Education (books, laptops, CD burners, videos, etc.) and in other Departments are free and available for use by beginning teachers. The JCSU Faculty Development workshops provide an excellent opportunity for beginning teachers to enhance skills needed in the classroom. A distribution list of beginning teachers is established each year to provide timely communications. In addition, a beginning teacher's seminar is held prior to the beginning teachers first day of the new school year. The goal of the BTSP is to ensure that first year teachers receive the necessary mentoring and support for a successful first year experience.

D. Brief description of unit/institutional efforts to serve lateral entry teachers.

The Department of Education continued to evaluate transcripts, develop plans of study, and offer courses in the evenings for Lateral Entry teachers. Thus the department may offer a course at any time during the year to meet the needs of Lateral Entry teachers. The University requested and received approval from the Southern Association of Colleges and Schools to offer off-site fast-track courses for licensure. In January 2008 Johnson C. Smith University received another \$100,000 grant from the Tom Joyner Foundation to help lateral entry teachers in North Carolina complete licensure requirements. JCSU will be able to offer lateral entry teachers 2,500 scholarships. The Joyner program has been extended through June 30, 2011 to allow all of the teachers to complete their programs. JCSU has been able to serve more lateral entry teacher at various level.

E. Brief description of unit/institutional programs designed to support career teachers.

JCSU continues to provide one on one support and resources to former graduates as needed. JCSU offers a culturally enriched Lyceum Series Program that is open to career teachers. The Lyceum Series is one of the stellar lecture and performance series in the Charlotte area, offering programs of international stature. Although designed to enhance the education experiences of students at the university, all programs are free and open to public school teachers. Another opportunity for career teachers is participation in the JCSU Faculty Development Program. The program offers monthly workshops on pedagogy and instructional technology.

F. Brief description of unit/institutional efforts to assist low-performing, at-risk, and/or priority schools.

JCSU faculty were involved in a successful grant writing campaign which provided funds to continue the efforts of the reform program. Students and faculty participated in tutoring activities in reading and mathematics for third and fifth graders at Thomasboro, Hickory Grove and Bruns schools. The tutoring occurred on the JCSU campus on Saturdays. JCSU has received funds through 2011 for two additional programs for African American males. These programs will

focus on talented males and middle school children. JCSU has established a Freedom School on the campus for the summer of 2011 to support students at Irwin Elementary and Bruns Avenue Elementary in literacy. A member of the education faculty is on the Board of Directors of the Freedom School as well as the education faculty volunteers to read to children who are participating in this program.

G. Brief description of unit/institutional efforts to promote SBE priorities.

The unit in tandem with the university's efforts to evaluate best practices for the recruitment of international students and provide a forum for sharing experience on international student recruitment. The unit is aligned with the university goal to recruit nontraditional, multicultural students through best practices. The unit is committed to the university's concept of Operational Excellence = C3; Competence, Communication, and Customer Service which promotes healthy and responsible students.

H. Special Emphasis for the Year of Record (which of the above [if any] did you put special emphasis on from the preceding year).

Our special emphasis for the 2010-2011 year was the continuation of our involvement with Irwin and Bruns Elementary Freedom Schools for K-8 at risk children.

Supplemental Information (Optional)

I. Brief description of unit/institutional special efforts to improve NTE/Praxis scores.

During the 2010-2011 academic year, faculty members throughout programs continued to: (1) integrate test content into courses, (2) include "Praxis" type questions on tests in most courses, (3) encourage and provide opportunities for students to broaden their knowledge through reading, (4) revise courses, and (5) refer students to off campus workshops when appropriate. The Department of Education also provided: (1) content review sessions,(2) timed writing activities to help students respond more effectively to essay questions. During the 2010-2011 academic year, the University continued to fund students to take Praxis II examinations. This allowed students to take the examination in a timely manner. Additionally, the Department of Education continued to purchase the new study guide for elementary education, and provided several sessions on preparing for the Praxis II examination. Praxis II objectives were integrated into all methods courses.

J. Brief description of unit/institutional special efforts to recruit students into professional education programs leading to licensure.

The unit continues to use institutional support and grant funds to assist in efforts to recruit students into professional education programs leading to licensure. The funds are used to support release time for departmental faculty, supplement costs of low enrollment courses which allow Licensure-Only and Lateral Entry students to complete their programs, and disseminate information on JCSU course offerings. The unit continued to participate in a number of campus recruitment activities during the 2010-2011 academic year. The unit sent letters to prospective students admitted to the university with an interest in education and will meet with these students

during summer orientation again this year. The Department of Education established a Freshman Learning Community during the fall of 2005 to help retain students. This effort is still current during 2010-2011 academic year. One cohort was established for education majors. Again, most of these students declared a major in one of the teacher education majors. We will send letters to these students this summer to encourage them to return in the fall of 2011. We will track this cohort of students through their years at the University.

K. Brief description of unit/institutional special efforts to encourage minority students to pursue teacher licensure.

Johnson C. Smith University is a historically Black institution and thus the majority of the students in the Teacher Education Program are African American. JCSU continues to use the Licensure-Only program is to increase the diversity in the Teacher Education Program. JCSU continues to be fortunate in that funds from several grants have been provided to assist in the recruitment of a more diverse student population. The unit continues to develop programs to help other nontraditional students such as teacher assistants earn degrees and licensure. Additionally, the unit is making an effort to encourage a more diverse population of students to pursue teacher licensure by providing schools and community organizations with brochures about the teacher education program.

L. Other (if applicable): Brief description of new initiatives (if any) not detailed previously in the narrative section.

JCSU continues to take an active role with Freedom School Partners. Freedom School Partners is the local sponsor of the Children's defense Fund Freedom Schools programs serving K-8 students. The Integrated Reading Curriculum is the main focus in the mornings during the six weeks of the summer; however, the afternoons are set aside for enriching activities such as math, science, and other activities. For the 2010-2011 academic year, JCSU faculty was instrumental in investigating new experiments, preparing and implementing the lessons for the program.

II. CHARACTERISTICS OF STUDENTS

A. Headcount of students formally admitted to and enrolled in programs leading to licensure.

Full Time			
	Male	Female	
Undergraduate	American Indian/Alaskan Native	American Indian/Alaskan Native	
	Asian/Pacific Islander	Asian/Pacific Islander	
	Black, Not Hispanic Origin	Black, Not Hispanic Origin	6
	Hispanic	Hispanic	
	White, Not Hispanic Origin	White, Not Hispanic Origin	
	Other	Other	
	Total	Total	6
Licensure-Only	American Indian/Alaskan Native	American Indian/Alaskan Native	
	Asian/Pacific Islander	Asian/Pacific Islander	
	Black, Not Hispanic Origin	Black, Not Hispanic Origin	
	Hispanic	Hispanic	
	White, Not Hispanic Origin	White, Not Hispanic Origin	
	Other	Other	
	Total	Total	
Part Time			
	Male	Female	
Undergraduate	American Indian/Alaskan Native	American Indian/Alaskan Native	
	Asian/Pacific Islander	Asian/Pacific Islander	
	Black, Not Hispanic Origin	Black, Not Hispanic Origin	
	Hispanic	Hispanic

B. Lateral Entry/Provisionally Licensed Teachers

Refers to individuals employed by public schools on lateral entry or provisional licenses.

Program Area	Number of Issued Program of Study Leading to Licensure	Number Enrolled in One or More Courses Leading to Licensure
Prekindergarten (B-K)		
Elementary (K-6)		
Middle Grades (6-9)		
Secondary (9-12)		
Special Subject Areas (k-12)		
Exceptional Children (K-12)		
Vocational Education (7-12)		
Special Service Personnel (K-12)		
Other		
Total	0	0
Comment or Explanation:		

C. Quality of students admitted to programs during report year.

	Baccalaureate
MEAN SAT Total	N/A
MEAN SAT-Math	N/A
MEAN SAT-Verbal	N/A
MEAN ACT Composite	N/A
MEAN ACT-Math	N/A
MEAN ACT-English	N/A
MEAN PPST-R	177
MEAN PPST-W	173
MEAN PPST-M	175
MEAN CBT-R	N/A
MEAN CBT-W	N/A
MEAN CBT-M	N/A
MEAN GPA	3.23
Comment or Explanation:	

D. Program Completers (reported by IHE).

Program Area	Baccalaureate Degree		Undergraduate Licensure Only	
	PC	LC	PC	LC
PC Completed program but has not applied for or is not eligible to apply for a license				
LC Completed program and applied for license				
Prekindergarten (B-K)				
Elementary (K-6)	5	1		
Middle Grades (6-9)				
Secondary (9-12)				
Special Subject Areas (K-12)				
Exceptional Children (K-12)				
Vocational Education (7-12)				
Special Service Personnel				
Total	5	1		
Comment or Explanation:				

E. Scores of student teachers on professional and content area examinations.

Specialty Area/Professional Knowledge	2009 - 2010 Student Teacher Licensure Pass Rate	
	Number Taking Test	Percent Passing
Elementary Education	3	*
Institution Summary	3	*
* To protect confidentiality of student records, pass rates based on fewer than five test takers were not printed.		

F. Time from admission into professional education program until program completion.

Full Time						
	3 or fewer semesters	4 semesters	5 semesters	6 semesters	7 semesters	8 semesters
Baccalaureate degree	5	1				
U Licensure Only						
Part Time						
	3 or fewer semesters	4 semesters	5 semesters	6 semesters	7 semesters	8 semesters
Baccalaureate degree						
U Licensure Only						
Comment or Explanation:						

G. Undergraduate program completers in NC Schools within one year of program completion.

2009-2010		Student Teachers	Percent Licensed	Percent Employed
Bachelor	Institution	4	*	*
Bachelor	State	5,569	80	48

H. Top10 LEAs employing teachers affiliated with this college/university. Population from which this data is drawn represents teachers employed in NC in 2010-2011.

LEA	Number of Teachers
Charlotte-Mecklenburg Schools	180
Union County Public Schools	14
Cumberland County Schools	11
Gaston County Schools	10
Wake County Schools	9
Guilford County Schools	6
Robeson County Schools	5

I. Satisfaction of program completers/employers with the program in general and with specific aspects of the program, as rated on a 1 (lowest) to 4 (highest) scale.

Due to several factors affecting responses, survey results will not be reported at the institutional level this year.

III. Teacher Education Faculty

Appointed full-time in professional education	Appointed part-time in professional education, full-time in institution	Appointed part-time in professional education, not otherwise employed by institution
