

IHE Master's Performance Report

Lenoir-Rhyne University

2012 - 2013

Overview of Master's Program

At this time, L-R has two programs active and running at the master's level. Master of Arts degrees are offered in one teaching area (Language Development & Learning) and in one school support area (School Counseling). These programs are designed for individuals who wish to pursue graduate studies in order to gain experience, develop leadership skills and enhance professional competence. The MA in Language Development and Learning includes a core of twelve credits designed to build leadership and research skills, equipping the teacher to function in an ever-changing, increasingly diverse society. A second set of twelve credits is required that expands and deepens the graduate candidate's knowledge and skills in the content area through applied research, assessment, and understanding of the learner. A third set of twelve credits is required that target leadership within the context of the specialized area of study with application evidenced through opportunities for intense internship. The Masters of Arts degree in School Counseling, which continues to be one of the fastest growing graduate programs, prepares individuals for positions as professional counselors in public school settings. The school counseling program (available through a masters level program or as a licensure only option for those entering with a related graduate degree), places primary emphasis on the development of strong clinical skills and the use of data-driven strategies in the development of a comprehensive school counseling plan. Prospective school counselors who satisfactorily complete the School Counseling program requirements and receive a passing score on the PRAXIS specialty examination are eligible for licensure as a school counselor in North Carolina. Beginning Fall 2012 the School Counseling program will be offered at the Lenoir-Rhyne University Center for Graduate Studies in Asheville, NC. Driven by discussion with school superintendents, and answering the issues and needs that they have for advanced and post-baccalaureate preparation, L-R added masters programs during the academic year 2012-2013. Blueprints were accepted by NC-DPI for a Master of Arts in School Leadership and recruitment is beginning for this program. The advanced level B-K licensure was temporarily closed due to lack of enrollment. Finally, the College of Education and Human Services began a Master of Arts in Community college Administration at the Center for Graduate Studies in Asheville, NC in the fall of 2012 and will begin offering an MA in Counseling in Columbia, SC during the 2013-14 academic year.

Special Features of Master's Program

The mission of both the teacher and counselor education programs at Lenoir-Rhyne University for both initial and advanced programs is to prepare professionals who know their content, know how to teach/counsel, are successful with diverse populations, are leaders, are reflective about their practice, and are respectful and caring. The School of Counseling prepares students as either agency counselors, school counselors, or as blended agency-school counselors. Any counseling student who completes a program as a School counselor must demonstrate a strong theoretical foundation, a mastery of clinical skills, and the ability to practice as reflective counselors interacting with diverse populations in a variety of settings within the public schools. The L-R University mission of wholeness of mind, body and spirit

set the tone for the personal, nurturing contact provided to candidates, a hallmark of the teacher and counselor education programs at L-R. These programs prepare reflective practitioners who are caring professionals who enter school environments knowing children and adolescents, and who address children's needs in order to support learning. During 2012-2013, opportunities were provided for graduate students and career school counselors to enhance their professional preparation by making presentations at a celebration of student research (SOURCE) held on campus in April. Additionally, affiliation with professional organizations was an area of emphasis for both Education and School Counseling programs. Counseling graduate candidates, faculty, and alumni remain active participants in the professional counseling associations, both at state levels and with the American Counseling Association. L-R hired two new graduate level instructors to work in the MAT initial licensure program and teach courses within the other graduate programs as necessary. Graduate B-K faculty continued participation in the task force called "The Power of K" which hosts an advocacy group of career Kindergarten teachers to support the expectations of developmentally appropriate practice and increase the availability of mentoring and professional development for less experienced teachers. In addition, the new MA in Language Development and Learning provides add-on track in ESL and DHH. In work with the area public schools in 2012-2013, each school counseling intern provided over 300 hours of service to their school during the internship as well as an additional 40 hours of service during early counseling practicum work. A new practicum was developed to provide 100 additional clinical hours to all candidates. Implementation will begin in 2013-14. Birth-Kindergarten candidates for advanced licensure continued their work in many types of public settings including programs in community colleges, More-At-Four programs, Pre-K, HeadStart sites and kindergartens in K-5 schools. Finally, the School of Counseling began delivering its MA in School Counseling program at the Center for Graduate Studies in Asheville, NC during the 2012-13 academic year. The first year saw very successful enrollments and we expect the program to continue its growth.
