

IHE Master's Performance Report

Salem College

2014 - 2015

Overview of Master's Program

At Salem College, graduate students in Master of Arts of Teaching (MAT) programs may earn licensure (initial and/or advanced) for art education, elementary education, general curriculum special education, and middle grades/ secondary education in science, English, mathematics, and social studies. MAT programs attract primarily mid-career professionals looking to enter teaching as well as recent college graduates who completed their bachelor's degrees without simultaneously receiving teacher preparation. All courses for initial licensure are offered both during the days and in the evenings, and all candidates for initial licensure participate in an extensive, carefully supervised one-semester practicum in an appropriate classroom setting (student teaching). MAT candidates also prepare an extensive electronic portfolio that documents their skills, knowledge, and dispositions in teaching. Graduate candidates who are already licensed teachers may select to pursue several add-on initial licensure programs (AIG, BK, ESL, or reading) or to enter a Master of Education program in elementary education, special education, language and literacy, or school counseling. All graduate education programs at Salem College are based on a conceptual framework of "Learning for All Students." Graduate candidates are expected to demonstrate two basic dispositions: that all students are learners and that teachers are responsible for creating the conditions of learning for all students. Graduate programs address the competencies issued by INTASC, NCATE, and the National Board for Professional Teaching Standards and are correlated to the NC Professional Teaching Standards and North Carolina Specialty Area Standards. To display advanced teaching competencies, graduate candidates conduct action research projects most of which focus on instructional strategies/ assessments for diverse populations geared to closing the achievement gap. Graduate students also participate in intentionally-structured experiences designed to help them emerge as instructional leaders in their schools. In order to be recommended for advanced licensure, all graduate candidates create a master practitioner portfolio as well as to compose, present, and defend a thesis.

Special Features of Master's Program

At Salem College, graduate students in the Masters of Arts in Teaching earn initial and/or advanced licensure in art, elementary education, general curriculum special education, or middle grades/ secondary education in English, mathematics, science, and social studies. A unique feature of Salem's MAT programs is that they are delivered in two "phases." Phase one leads to initial licensure, while phase 2 affords candidates the opportunity to complete advanced competency licensure. The MAT program is open both to general post-bac candidates as well as to lateral entry teachers. Many lateral entry teachers elect to "clear their licenses" by completing phase 1 of the MAT; this enables them to apply

competency-based coursework to their degrees and to progress to the master's phase uninterrupted. Many of Salem's MAT candidates are mid-career professionals from other occupations who wish to enter teaching. These candidates bring life experiences and maturity to their teacher education experiences. Students participate in phase 1 licensure courses at the graduate level, extensive field experiences, and a full-semester supervised practicum. All licensure candidates are expected to demonstrate the two dispositions that guide teacher education at Salem College: the beliefs that 1) all students are learners; and 2) teachers are responsible for creating the conditions of learning for all students. In addition, candidates are expected to demonstrate competencies in: best constructivist practice in teaching, classroom management, instructional design and differentiation, assessment, technology integration, reflective practice, the development and use of educational research (especially classroom-based action research), and teacher leadership. Master of Education programs for elementary, special education, and language & literacy are open to licensed teachers who want to gain expertise in their specialty area and to complete their master's degree. All graduate programs are planned around standards issued by NCATE, INTASC, the NC Professional Teaching Standards. Salem College recently graduated its first cohort of students enrolled in an online program in school counseling. This MEd program blends online coursework with two weekend residency sessions and supervised practicum/ internship experiences, all of which are based on the CACREP standards for school counseling.

II. CHARACTERISTICS OF STUDENTS

A. Headcount of students formally admitted to and enrolled in programs leading to licensure.

Full Time				
	Male		Female	
Graduate	American Indian/Alaskan Native		American Indian/Alaskan Native	
	Asian/Pacific Islander		Asian/Pacific Islander	
	Black, Not Hispanic Origin	2	Black, Not Hispanic Origin	30
	Hispanic		Hispanic	1
	White, Not Hispanic Origin	1	White, Not Hispanic Origin	66
	Other		Other	1
	Total	3	Total	98
Licensure-Only	American Indian/Alaskan Native		American Indian/Alaskan Native
