Annual Dropout Event Report for School Year 2006-07

Executive Summary

High schools in North Carolina reported 23,550 dropout events in 2006-2007. The grade 9-12 dropout event rate in 2006-2007 was 5.24%, an increase from the 5.04% rate reported for 2005-2006. The increase in dropout rate was 4.0%.

Despite overall increases in dropout counts and rates, many parts of the state experienced decreases. There were decreases in grade 9-12 dropout counts in 43% (49 of 115) of the Local Educational Agencies (LEAs), accounting for a reduction in 1151 dropouts. Six other LEAs had no increase or small increases in dropout counts that resulted in lower dropout rates.

The 23,550 dropout events recorded in grades 9-12 represented a 6.2% increase from the count of 22,180 reported in 2005-2006.

As in 2005-06, large LEAs accounted for much of the net increase in reported numbers of dropouts. One school system accounted for 788 of the state's net increase of 1,370. The next three largest increases were of 210, 157, and 143.

Black and Hispanic students accounted for a disproportionate amount of the increase in dropout count, although the dropout rate for Hispanic students slightly declined. The 2006-07 rate for Hispanic students was 7.66%. The dropout rate for black students increased substantially for the second consecutive year and is now at 6.16%.

The dropout rate for American Indian students declined for the third consecutive year, although their dropout rate remains higher than the average overall. The dropout rate was 8.84% in 2003-04. By 2006-07 it was down to 7.71%.

The reason of "attendance issues" was again the reason most often noted for a dropout event, accounting for over half of all events. Also, for a second consecutive year, there was a sharp increase in the "Enrollment in a Community College" dropout reason code, and these additional dropout events again accounted for over one third of the additional dropout events reported. The reason code is reported by the schools. Currently, there is no verification of how many high school dropouts actually enrolled in community college adult high school or GED program.

Dropout Prevention Efforts

The issue of high school dropouts has been a concern for a number of years, prompting significant work recently to improve middle and high schools so that students are better engaged and supported in their learning. There are a number of efforts underway to provide better academic opportunities and outcomes for students in North Carolina. Specific efforts expected to impact the dropout rate include:

- (1) Literacy Coaches. The 2007 session of the General Assembly approved 100 additional literacy coaches for middle schools, increasing the total number to 200.
- (2) Learn and Earn Early College High Schools. There are currently 42 Learn and Earn Early College high schools in the state, up from 33 in 2006-07, and by the end of

2008, 76 such schools should be operational or in planning. These schools provide students, particularly non-traditional college students or students who could be first-generation college students, the opportunity to earn an Associate's Degree at no cost while still under the supervision and support of high school faculties. Early performance indicators show promise for the state's future dropout rates. For example, during the 2005-06 school year (the most recent year for which promotion rates are available), 10 of the 13 Learn and Earn Early College high schools reported 9th grade promotion rates better than 95 percent. Statewide, the ninth grade promotion rate for all schools is 85 percent.

(3) Dropout Prevention Grants. The Joint Legislative Commission on Dropout Prevention and High School Graduation awarded 60 groups (school systems, schools, agencies and nonprofits) across the state grants totaling \$7 million to help them in their efforts to reduce drop outs. The Commission will evaluate the programs and decide whether expanding or replicating them will improve graduation rates in the state.

(4) High School Transformation. Two years ago, the Department of Public Instruction and State Board of Education began serious work in partnership with the state's chronically low performing high schools to provide the support they need for systemic change and improvement. NCDPI now has 35 schools in High School Turnaround and 54 schools in High School Turnaround Assessment, the first step toward improving each school.

(5) North Carolina Virtual Public School. The NCVPS's goal is to provide students with courses that are unavailable to them at their traditional schools or scheduled at times that students are not able to access traditional brick-and-mortar courses.

(6) Learn and Earn Online. Learn and Earn Online enables students to register and take online courses through any community college or through the University of North Carolina at Greensboro iSchool at no cost to the student or their family.

(7) EARN Scholarships. The EARN Scholarship provides incentives for students and enables Early College high school students who are at or below 200 percent of the poverty level and who complete an Associate's Degree with an acceptable grade point average to qualify to earn their baccalaureate degree debt-free at one of North Carolina's public universities.

§115C-12. Powers and duties of the Board generally.

- (27) Reporting Dropout Rates, Suspensions, Expulsions, and Alternative Placements. – The State Board shall report annually to the Joint Legislative Education Oversight Committee and the Commission on Improving the Academic Achievement of Minority and At-Risk Students on the numbers of students who have dropped out of school, been suspended, been expelled, or been placed in an alternative program. The data shall be reported in a disaggregated manner and be readily available to the public. The State Board shall not include students that have been expelled from school when calculating the dropout rate. The Board shall maintain a separate record of the number of students who are expelled from school.

North Carolina Public Schools Annual Dropout Event Report for School Year 2006-07

Introduction

North Carolina General Statute 115C-12(27) requires the compilation of an annual report of students dropping out of schools in the state. Dropouts are reported for each Local Educational Agency (LEA) and charter school in the state, and “event dropout rates” are computed. The event dropout rate is the number of students in a particular grade span dropping out in one year divided by a measure of the total students in that particular grade span. Currently, rates are calculated for grades 1-12, 7-12, and 9-12.

The event rates are also referred to as “duplicate” rates, since a single individual may be counted as a dropout more than once if he or she drops out of school in multiple years. However, no student who drops out is counted more than once each year. For the purposes of this analysis, dropout events do not include students below the compulsory school age or students in Pre-kindergarten or Kindergarten.

A dropout is defined by State Board policy (HSP-Q-001) as “any student who leaves school for any reason before graduation or completion of a program of studies without transferring to another elementary or secondary school.” For reporting purposes, a dropout is a student who was enrolled at some time during the previous school year but who was not enrolled (and who does not meet reporting exclusions) on day 20 of the current school year. Schools that cannot document a former student’s enrollment in a US school must report that student as a dropout. An exception is made for students who are known to have left the country.

Schools are allowed to exclude from their dropout count “initial enrollees,” students who leave school within twenty days of their first enrollment in a particular LEA, or school district. Reporting exclusions also include expelled students and students who transfer to a private school, home school, or a state-approved educational program. Students who are not enrolled on day 20 because they have serious illnesses or are serving suspensions are also not counted as dropouts. Since 1998, dropout rates have included the dropout events of students who leave the public schools to attend community colleges.

For this report, the Office of Agency Operations and Information Management in the North Carolina Department of Public Instruction collected and compiled data submitted by each local school district and charter school. The data are self-reported by the districts, and the State agency does not conduct an official audit. The school districts across the state began submitting their data in October 2007. To facilitate accurate reporting, DPI ran error checks and placed error reports and listings of apparent duplicate dropouts on a secured website for review by the schools and LEAs. Corrections and verifications were completed by all schools and LEAs by December, 2007.

Trends and Categorical Data

North Carolina's dropout event rates over time

North Carolina recorded 23,550 dropout events in grades 9-12 for 2006-2007, a 6.2% increase from the count reported in 2005-2006. It is the highest count of dropouts since 1999-2000, when 23,597 were reported.

Because of growth in the school population, the increase in the statewide dropout rate was not as great. The grade 9-12 event dropout rate increased 4.0%, from 5.04% in 2005-2006 to 5.24% in 2006-2007. The dropout rate was the highest since 2001-02, when it was 5.25%.

Dropout counts and rates from 1999-2000 to 2006-2007 are shown below in Figure 1.

Figure 1. Annual grade 9-12 dropout events and rates from 1999-2000 to 2006-07.

The dropout rate is calculated as follows:

$$\frac{\text{Number of Dropouts}}{[(20\text{th Day Membership } 2006-07 - \text{FM20s} + 20\text{th Day Membership } 2007-08) / 2] + \text{Number of Dropouts}}$$

The subtraction of “FM20s” is a very minor adjustment to the denominator. FM20s are “initial enrollees” who were enrolled on the 20th day in the 2006-07 school year. Initial enrollees are students who drop out after spending 20 days or less in the LEA. Because

initial enrollees are exempt from dropout reporting, they must be removed from the measure of enrollment in the denominator.

Ages and grades of dropouts

North Carolina’s compulsory school law, G.S. 115C-378, requires school attendance for all children between the ages of seven and 16. It is reasonable, therefore, that dropout events increase in frequency as students reach 16 years of age. In 2006-2007, 77.6% of dropouts were students of ages 16 through 18. See Figure 2.

Figure 2. Frequency distribution of 2006-07 dropout events by age.

As seen in Figure 3, students dropped out more frequently at grade 9 (32.0%), followed by grade 10 (24.9%), grade 11 (22.4%), and grade 12 (15.0%).

Figure 3. Frequency distribution of 2006-07 dropout events by grade.

The age and grade distributions of dropout events in 2006-2007 were similar to those of previous years.

Reasons for dropping out

State law (G.S. 115C-47) requires that local boards of education put in place a mechanism for referring dropouts to appropriate services. Many districts require exit conferences, which provide an opportunity for a discussion of the reasons for the decision to drop out. In most districts, school social workers or school counselors are responsible for documenting the reasons for dropping out.

By their very nature, dropout events can be difficult to investigate, and there are circumstances when a school official has to provide an “approximate” reason for a student’s leaving school. A reason code of MOVE is often used when the student cannot be located.

The attendance (ATTD) code has historically been used when one of the more specific reasons was not applicable. In the Dropout Data Collecting and Reporting Procedures Manual published online in August 2007, ATTD was defined for the first time. ATTD is now to be used only when “the student dropped out due to excessive absences that caused the student to become ineligible or in jeopardy of becoming ineligible to receive course credits.” However, because there is currently no code for “Other” or “Unknown,” ATTD was likely used this year in much the same way as in past years. “Unknown” (UNKN) will be introduced as a reason code for 2007-08. Table 1 lists the reason codes currently in use.

Table 1. Dropout Reason Codes

ABUS	Suspected substance abuse
ACAD	Academic problems
ATTD	Attendance
CHLD	Need to care for children
COMM	Enrollment in a community college
DISC	Discipline problem
EMPL	Employment necessary
EXPL	Expulsion
HEAL	Health problems
HOME	Unstable home environment
INCR	Incarcerated in adult facility
LTSU	Failure to return after a long-term suspension
MARR	Marriage
MOVE	Moved, school status unknown
PREG	Pregnancy
RNAW	Runaway
WORK	Choice of work over school

ATTD was by far the most widely reported code, accounting for 51% of all reasons reported in 2006-2007 and 53% of the reasons for students dropping out of grades 9-12. Table 2 displays the frequencies of all reason codes that were submitted for dropout events that occurred in grades 9 through 12.

Table 2. Grade 9-12 Dropout Reason Codes Reported in 2006-07.

Reason	Code	Count	Percent
Attendance	ATTD	12534	53.2%
Enrollment in a community college	COMM	3207	13.6%
Moved, school status unknown	MOVE	2382	10.1%
Academic problems	ACAD	1672	7.1%
Choice of work over school	WORK	837	3.6%
Failure to return after a long-term suspension	LTSU	814	3.5%
Discipline problem	DISC	584	2.5%
Unstable home environment	HOME	271	1.2%
Pregnancy	PREG	268	1.1%
Incarcerated in adult facility	INCR	263	1.1%
Health problems	HEAL	189	0.8%
Runaway	RNAW	178	0.8%
Need to care for children	CHLD	166	0.7%
Employment necessary	EMPL	99	0.4%
Suspected substance abuse	ABUS	48	0.2%
Marriage	MARR	38	0.2%
	Total	23550	100.0%

Students who are expelled from a school and who fail to return to school are coded with “Expulsion” (EXPL) as a reason for dropping out. These students are not included in the official counts or rates that appear in this report. In 2006-2007, there were 72 dropout events coded with EXPL, 69 of which were in grades 9 through 12.

Tracking reason codes over time can assist in identifying the changes in both the outside incentives and the environmental stressors that can lead to dropouts. As mentioned earlier, the ATTD code communicates little about why a student drops out of school. Figure 4 shows the variation in proportions of the six most frequently reported reason codes (other than ATTD) over the last eight years.

Figure 4. Proportions of grade 9-12 dropout reason codes reported.

The changing proportions of reported reason codes point to one factor in particular that may be related to the overall increase in dropouts. For the third year in a row, an increasing proportion of dropouts were identified as leaving school to take part in a community college program. According to state guidelines, students leaving to attend community college programs must be counted as dropouts.

According to reason code data, the number of students leaving public schools for community college has more than doubled in the last three years. In the 2003-2004 report, 1,374 dropout events were coded COMM. The number increased to 1,930 in 2004-2005, to 2,692 in 2005-2006, and to 3,207 in 2006-07. Last year's increase of 515 accounted for 38% of the 1,370 additional dropouts reported in 2006-2007.

The dropout reporting rules in North Carolina require that schools record a dropout for each student who is known to have moved away from the area but who cannot be verified as attending school elsewhere. In these cases, a reason code of MOVE is used. As seen in Figure 4, the proportion of grade 9-12 MOVE reason codes in 2006-2007 was also relatively large, with the number increasing from of 2,098 in 2005-06 to 2,382 in 2006-07. It is likely that a number of the MOVE-coded dropouts are "false positives," however the requirement to report them provides a necessary incentive to locate all students and to try to insure their participation in education.

Gender and race of dropouts

Males have historically dropped out more frequently than females, and this pattern was again seen in the 2006-2007 dropout event data. Males accounted for 59.4 percent of the dropout events, down from 59.9 percent in 2005-06.

Table 3 shows the contribution of each ethnic group to the total increase in dropout events reported in 2006-2007. Note that all groups except Asians and American Indians contributed to the increase in dropout events reported.

Table 3. Change in grade 9-12 dropout event counts by ethnicity, 2005-06 to 2006-07.

Ethnic Group	2005-2006	2006-2007	Change
Black	7,641	8,329	688
White	11,307	11,674	367
Hispanic	2,098	2,344	246
Multiracial	398	494	96
Asian	236	229	-7
American Indian	500	480	-20
TOTAL	22,180	23,550	1,370

Since the white student population in North Carolina is almost double the black student population and roughly ten times the Hispanic student population, it can be shown that the increase in black and Hispanic dropout events seen in Table 2 is disproportional. Given 367 additional white dropout events, we would expect only about 180 additional black dropout events and only about 40 additional Hispanic dropout events if the 2005-2006 increase in dropouts were proportional. Because the changes in dropout counts were much higher, we can conclude that black students and Hispanic students contributed disproportionately and significantly to the substantial increase in dropout events reported in 2006-2007.

Figure 5 shows that American Indian, Hispanic and black students were over-represented in 2006-2007 dropout rates, as they were in previous years. The state's grade 9-12 dropout event rate in 2006-2007 was 5.25 percent. American Indian students, however, dropped out at a rate of 7.71 percent; Hispanic students left school at a rate of 7.66 percent; and Black students dropped out at a rate of 6.16 percent.

Figure 5. 2006-2007 grade 9-12 dropout event rates by ethnicity.

Figure 6. Grade 9-12 dropout event rates among ethnic groups, 2003-04 to 2006-07.

Figure 6 shows the dropout rates for each group over time. The dropout rate for American Indian students fell to its lowest level in the last four years. The dropout rate for Asian students declined to the low mark of 2.41 percent achieved in 2004-05.

Because of a rapidly increasing population, the rate for Hispanic students also declined--despite a large increase in dropout events.

The dropout rates for black, multiracial and white students increased in 2006-07. The rate for black students increased 6.2 percent, from 5.80 in 2005-06 to 6.16 in 2006-07. The rate for multiracial students increased 7.8 percent, and the rate for white students increased 3.0 percent. The rate increase for all students from 5.04 in 2005-06 to 5.24 in 2006-07 represents an increase of 4.0 percent.

Figure 7 illustrates the grade 9-12 dropout event rates among combined ethnic and gender groups. Male American Indian students have the highest dropout event rate at 8.76 percent, followed by Hispanic males at 8.21 percent, black males at 7.55 percent, and Hispanic females at 7.06 percent. Other groups with rates higher than the state average of 5.24 percent were American Indian females (6.66 percent) and multiracial males (6.14 percent).

Figure 7. Grade 9-12 dropout event rates among ethnic/gender groups for 2006-07.

Figure 8 shows the increase in grade 9-12 dropout rate for ethnic/gender groupings from 2003-2004 to 2006-2007. Multiracial males had the highest rate increase of 34.6 percent during this time period. The other groups with rate increases during this time period were Asian males (12.3 percent), white males (8.4 percent) black females (8.2 percent), black males (7.9 percent), Hispanic females (5.8 percent), white females (4.1 percent) and Hispanic males (2.2 percent).

Asian females had the largest dropout rate decrease over the period 2003-04 to 2006-07, 21.8 percent. Other groups with rate decreases were American Indian males (16.5 percent), multiracial females (8.8 percent), and American Indian females (6.6 percent).

Figure 8. Grade 9-12 dropout event rates for ethnic/gender groups, last four years.

Summary of Trends

In 2006-2007, dropout event counts and rates increased in North Carolina’s public schools. The analysis of trend data revealed the following significant findings:

- 1) In 2006-07 students reported leaving school for community college accounted for 14 percent of the reasons for dropping out of school. These dropout events appear to be partly responsible for the increase in dropout rates over the last two years. For the second year in a row, students who were reported as leaving for community college accounted for 38% of the increase in dropout events.
- 2) Black students and Hispanic students contributed disproportionately and significantly to the increase in dropout events reported in 2006-2007
- 3) Despite recent improvements, male American Indian students have the highest dropout event rate (8.76 percent) of any ethnic/gender group. Other groups with rates substantially higher than the state average are Hispanic males (8.21 percent), black males (7.55 percent), Hispanic females (7.06 percent) and American Indian females (6.66 percent).

Appendix – LEA Dropout Data

Table 1 presents the 2006-2007 grade 9-12 dropout event counts and rates for each local school district and charter school.

Table 2 contains the grade 9-12 dropout events and rates for 2006-2007 and the five previous years.

Table 3 contains the grade 7-12 dropout events and rates for 2006-2007 and the five previous years.

Table 4 reports the 2006-07 grade 9-12 dropout events by school district, gender, and ethnicity.

Table 5 reports the 2006-07 grade 7-12 dropout events by school district, gender, and ethnicity.

Table 6 reports the 2006-07 grade 1-12 dropout events by school district, school, gender, and ethnicity.
